

CITY OF FERNANDINA BEACH
MUNICIPAL AIRPORT
RENTAL AND USE AGREEMENT

This RENTAL AND USE AGREEMENT (hereinafter referred to as the "Agreement"), made and entered into this _____ day of _____ 2021 made by and between the City of Fernandina Beach (hereinafter referred to as the "City") and Advanced AeroTechnologies, LLC, a for profit corporation, its heirs, successors, and assigns with authority to do business in the State of Florida (hereinafter referred to as the "Tenant") for renting hangar and office space within Hangar B, 602 Airport Road, Fernandina Beach, Florida 32034 at the Fernandina Beach Municipal Airport.

WHEREAS, City owns, controls, and operates the Fernandina Beach Municipal Airport (hereinafter referred to as the "Airport"), in the City of Fernandina Beach, County of Nassau, and State of Florida; and

WHEREAS, Tenant has proposed to rent hangar and office space within Hangar B at the Airport for aeronautical commercial activity; and

WHEREAS, City desires to also make hangar and office space available within Hangar B to Tenant at the Airport for aeronautical commercial activity; and

NOW, THEREFORE, for and in consideration of the mutual agreements contained herein to be performed by the respective parties, and in consideration of the rent hereinafter designated to be paid, City hereby rents space and use as described below to the Tenant, and the Tenant does hereby rent the below described space.

1. Rented Premises.

1.1 Rented Premises. City hereby rents to Tenant, and Tenant hereby rents from City, 602 Airport Road, "Hangar B", Fernandina Beach, Florida 32034 (hereinafter referred to as the "Rented Premises") to also include exclusive use of a portion of its adjacent aircraft parking apron and use of an adjacent area for vehicle parking together with the right of ingress and egress to the Rented Premises shown as Exhibit "A". The Rented Premises includes approximately 12,482 square feet of hangar and office space with associated restroom facilities within the hangar.

1.2 Use of Rented Premises. The Tenant is authorized to conduct the following non-exclusive use at the Airport: all operations associated with the conduct of aircraft maintenance and avionics services to include general aircraft storage and other non-commercial related aviation operations. Additionally, the Tenant is permitted to provide the commercial storage of aircraft of others. Any other commercial aeronautical activity may be permitted in the future, however such activity would require expressed written consent by City and would require that Tenant obtain necessary permits, as may be required. All Tenant operations shall comply with all federal, state, and local rules, regulations, and ordinances. For the purposes of this Agreement, the term "Rented Premises" shall include the use of airspace above and in the vicinity of said Airport, which is being used for conducting airport operations by Tenant.

1.3 Condition of Rented Premises. Tenant shall accept the Rented Premises to include aircraft parking apron, public use areas, and the vehicle parking area in its present condition without any liability or obligation on the part of the City to make any alterations, improvements, or repairs of any kind on or about said Rented Premises.

1.4 Prohibited Uses of Rented Premises. Storage of boats and other water vehicles, ATV's, RV's, campers, or other non-aviation items on the Rented Premises including the vehicle parking area shall not be permitted without express written consent from the City. Tenant agrees that its personal contents on the Rented Premises, stored without written approval of the City, are stored at the Tenant's sole risk and expense.

1.5 Nonexclusive Rights. Notwithstanding anything herein to the contrary, it is expressly understood and agreed that the rights granted under the Agreement are non-exclusive, and the City herein reserves the right to grant similar privileges to another Tenant or other Tenants on other parts of the Airport. However, City does covenant and agree that it shall enforce Airport Rules and Regulations and Airport Minimum Standards for Commercial Aeronautical Activities as currently approved, and as may be amended in the future, for requirements for all similar services and activities conducted at the Airport.

2. Term.

The term of this agreement shall commence on March 31, 2021 and continue for a period of five (5) years unless terminated earlier under other provisions of this Agreement.

Provided the Tenant is not in default of any terms and conditions of this Agreement, the Tenant may request, in writing, to extend this Agreement for an additional five (5) years. This may be done two times. Such written notice must be given a minimum of 120 days before the end of the initial term.

3. Rent.

3.1 Rent Computation. For the use of the Rented Premises, Tenant shall pay the City the rental amount of \$2,756.00 per month which is also subject to applicable sales tax, currently \$192.92 for a total of \$2,948.92 per month payable in advance on or before the first day of each month. For the first five (5) years from the commencement date of this agreement, this rental fee shall be reviewed each year by the City and rental fee, plus all applicable taxes, shall be adjusted so as to maintain a fair rental rate based on change in the Consumer Price Index (CPI) – All Urban Consumers South Urban Region – All Items (base year 1982-84=100), as published by the United States Department of Labor – Bureau of Labor Statistics. Such CPI change will be computed each year after the completion of the month of July and any change will be implemented and effective with October rent payments of each year. The City recognizes that the rental payment identified in this paragraph is below the recommended fair market value for rental of this hangar, however Tenant also agrees to fund up to \$90,000.00 in capital improvements within the first five (5) year term of this agreement as outlined in Paragraph 3.3 below, which value distributed across five years equates to the total fair market value for rental of the hangar within the first five (5) year term of this agreement.

3.2 Following the first five (5) years from commencement of this agreement, and contingent upon agreement by both parties to extend this agreement beyond the original term under the provisions above, Tenant shall pay the City the rental amount of \$4,256.00 per month which will also be subject to applicable sales tax at that time. This rental rate will be effective and payable to the City on October April 1, 2026. The rental rate established in 2026 shall subsequently be reviewed each year by the City and rental fee, plus all applicable taxes, shall be adjusted so as to maintain a fair rental rate based on change in the Consumer Price Index (CPI) – All Urban Consumers South Urban Region – All Items (base year 1982-84=100), as published by the United States Department of Labor – Bureau of Labor Statistics. Such CPI change will be computed each year after the completion of the month of July and any change will be implemented and effective with October rent payments of each year. Following the first five (5) year term of this agreement an appraisal, market rent study, or alternative method as designated by the City may be substituted periodically for the CPI adjustment, and shall be at least four years apart, and any such adjustment will also be implemented in October of the applicable year. In no event, however, shall the rental fee be less than the previous year's rental

amount. The Tenant shall be solely responsible for the payment of any applicable ad valorem property taxes, if applicable.

3.3 Tenant shall fund capital improvements to Hangar B in an amount not to exceed \$90,000.00 within the first five (5) year term of this rental agreement. Any improvements proposed by tenant shall be provided, along with specific project plans and cost estimate, in writing, to the City's Airport Manager or designated authority which shall have authority to approve or deny the proposed improvements within thirty days of receipt of a proposal by the Tenant. Such approval does not constitute review or approval as required by local, state, or federal permitting agencies which shall also be the responsibility of the tenant, if applicable. Capital improvement expenses may include facility improvement/renovation construction activities, planning/architectural services related to proposed improvements, and permitting fees required for completing proposed improvements. Proposed improvements may generally include, but are not limited to, structural components such as roof, interior office space restoration/renovation, flooring, lighting fixture replacement, interior and exterior wall component replacement, and the hangar door improvements. Capital improvements shall not include routine operations and maintenance expenditures that are the responsibility of the Tenant. Upon the anniversary of the lease effective date each year, Tenant shall provide an expenditure report for capital improvements conducted within the Rented Premises for the preceding year and must provide a walkthrough inspection of completed capital improvements with the City's Airport Manager or designated representative. At the end of the first five-year term of this Lease, the total amount of expenditures for approved capital improvements will be reviewed and the difference between the total amount of expenditures made by tenant and the "\$90,000.00 capital improvements allotment" explained above shall be payable and due to the City within thirty days of the expiration of the first five (5) year term of this rental agreement.

3.4 Place of Payment. All payments due City from Tenant shall be made payable to the City of Fernandina Beach and mailed to P.O. Box 1146, Fernandina Beach, Florida, 32035 or delivered to 1180 South 5th Street Extension, Fernandina Beach, Florida 32034.

3.5 Delinquency Charge. Any payments received after the tenth (10th) day of the month are subject to a delinquency charge of one and one-half percent (1½%) per month beginning with the eleventh (11th) day after payment is due. In the event that the Agreement is terminated on any date other than the first day or last day of a calendar month, the applicable rentals, fees, and charges for that month shall be paid for said month on a pro rata basis, plus applicable sales tax, according to the number of days in that month during which the Rented Premises was enjoyed by the Tenant.

3.6 Unpaid Rent. If the rent, as herein provided, at any time remains due and unpaid for a period of ten (10) days after same shall become due, the City may, at its option, consider the Tenant at sufferance and City may immediately consider the Agreement to be terminated, may re-enter said premises, and the entire rent shall become due and payable and may forthwith be collected by distress or otherwise.

4. Tenant Rights and Obligations.

4.1 Rented Premises Maintenance, Repair, and Upkeep. The Tenant shall maintain the Rented Premises in a neat and orderly condition, and shall keep the floor and wall space clean and clear of oil, grease, and/or toxic chemicals. No hazardous or flammable materials shall be stored within or about the Rented Premises unless stored within an Environment Protection Agency (EPA), National Fire Protection Association (NFPA), or local Fire Marshal approved container/cabinet. No boxes, crates, rubbish, paper, or other litter that could cause or support combustion shall be permitted to accumulate within or about the Rented Premises. Tenant shall not commit, nor allow to be committed, any waste on the Rented Premises, create or allow any nuisance to exist on the Rented Premises, or use or allow the Rented Premises to be used for any unlawful purpose or unsafe purpose. The Tenant shall, at its sole cost and expense, maintain and keep the facility to include, but

not limited to office/storage space, HVAC systems, and plumbing of Rented Premises in good repair and make all repairs necessary to keep and maintain such space of the Rented Premises, including all improvements thereon, in good condition so as to present an attractive appearance in conformity with other Airport facilities. The Rented Premises and all improvements thereon must be maintained in a safe, clean, and sanitary condition.

4.2 Alterations. Tenant covenants and agrees not to install any fixtures or make any alterations, additions, or improvements to the Rented Premises without the express written consent of the City. Tenant shall make no structural, electrical, or other modification to the Rented Premises without first obtaining City's written permission. Any and all repairs, maintenance, or improvements made by Tenant shall be accomplished in accordance with all requirements and specifications of the City Building/Fire Codes and obtaining permit(s), if required. Any improvements, alterations, or additions that may be approved shall be at the expense of the Tenant. Any and all fixtures installed, improvements, alterations, or additions made shall become the property of the City upon vacating the Rented Premises without compensation or payment to Tenant. Other applicable guidance is contained in NFPA 409 Standard on Aircraft Hangars and the Florida Building Codes which can be viewed in the office of the Airport Manager or their designated representative.

4.3 Damage to Property. Tenant shall be responsible for all damage to property, real or personal, located on, in, or about Hangar A including the Rented Premises, aircraft parking apron, vehicle parking area, or public use areas damaged as a result of the Tenant's negligence, misuse, or abuse. In the event the Tenant does not promptly repair any damaged Rented Premises, for which the Tenant is responsible, the City reserves the right to make such repairs at Tenant's expense, which shall become due and payable as part of the Tenant's next monthly rental payment. Such repairs shall be charged to Tenant at 115% of cost to City. Tenant shall immediately report any damage caused to Hangar A to the Airport Manager.

4.4 Airport Security. Tenant has obligation to operate upon the Airport and its Rented Premises to not undermine the security of the Airport.

4.5 Commercial Activity. Tenant is permitted to operate commercial aeronautical activities as described in Section 1. Tenant hereby agrees that it shall comply with the contents of Exhibit "D" - Minimum Operating Standards for Commercial Aeronautical Activities (Minimum Standards), attached hereto, as currently approved or as may be amended from time to time. Should the Minimum Standards be updated and any requirement become more restrictive than current Minimum Standards the Tenant shall have eighteen (18) months from date of adoption to meet the revised Minimum Standards unless waived in writing by the City. Once updated, those Minimum Standards shall become a part of this Agreement.

4.6 Access. Tenant, its employees, patrons, invitees, suppliers, agents, and contractors shall have at all times the right of ingress to and egress from the Rented Premises but this right does not relieve those named persons, firms, or corporations from the obligation to observe and obey all rules, regulations, or laws that may then currently be in effect in the operation of the Airport. To ensure this right the City shall make all reasonable efforts to keep adjacent areas to the Rented Premises free and clear of all hazards and obstructions, natural and manmade.

4.7 Signs. Tenant agrees that no signs or advertising matter or material of any kind may be erected without the prior written consent of the City, and the issuance of such permits as may be required under the City of Fernandina Beach Code of Ordinances.

4.8 Equipment and Trade Fixtures. Tenant will retain title to all of its trade fixtures and equipment and any improvements and property installed by Tenant to the Rented Premises during the term of the Agreement. Upon termination of the Agreement or upon removal of trade fixtures and equipment,

the Tenant shall restore the Rented Premises to good condition at its sole cost and expense. Any Tenant improvements or property installed and not removed become the property of City.

4.9 Fire Extinguisher. The Tenant shall maintain at all times, in the Rented Premises, a minimum of three approved ten pound dry chemical fire extinguisher suitable for use on Type A, B, and C fires with current inspection certificate from an approved fire equipment company or the local Fire Inspector affixed.

4.10 Compliance with Applicable Laws, Rules, and Regulations. Notwithstanding other requirements contained herein, the Tenant at its sole cost and expense, hereby agrees to and shall comply with all applicable laws, ordinances, rules, and regulations established by federal, state, local government agency, and by the City, as they may be amended from time to time, and conduct its operations in accordance with all applicable regulations pertaining to airports, including Airport Rules and Regulations, attached hereto as Exhibit "C", promulgated by the City governing safe and efficient operation of Fernandina Beach Municipal Airport. The City may, from time to time, modify and/or update the Rules and Regulations. City will provide Tenant with a copy of the updated Rules and Regulations, and once updated or revised, those Rules and Regulations shall become a part of the Agreement. The City and Tenant agree that any violation of any of the conditions of the Agreement or any violations of the Airport's Rules and Regulations shall be sufficient cause for termination of the Agreement and eviction of Tenant from said Rented Premises, in accordance with Section 8 herein.

4.11 Compliance with Environmental Law, Rules, and Regulations. Tenant expressly represents, covenants, warrants, guarantees, and agrees that it shall fully comply with all federal, state, and local laws, ordinances, rules, and regulations protecting the environment. Tenant agrees to keep informed of future changes in the existing environmental laws. Such compliance will be responsibility of the Tenant at its sole cost and expense.

4.12 Hazardous Materials and Toxic Waste. Tenant shall not cause or permit to occur:

a. Any violation of any federal, state, or local law, ordinance, or regulation now or later enacted, related to environmental conditions on, under, or about the Rented Premises, or arising from Tenant's use or occupancy of the Rented Premises, including, but not limited to, soil and ground water conditions; or

b. The use, generation, release, manufacture, refining, production, processing, or disposal of any hazardous substance on, under, over, or about the Rented Premises.

c. Tenant shall, at its sole and exclusive expense, comply with all laws and regulations regulating the storage or transportation of hazardous substances relating to the Rented Premises and shall further make all submissions to, provide all information required by, and comply with all requirements of all governmental authorities under applicable federal, state, and local laws and regulations; and the City is to be immediately notified by Tenant of any claim or allegation of non-compliance herewith.

d. If any authority demands that a clean-up plan be prepared and that a clean-up be undertaken because of any deposit, spill, discharge, or other release of hazardous substances that occurs during the term hereof, or any renewals hereof, at, or from the Rented Premises, or which arises from Tenant's use or occupancy of the Rented Premises, then Tenant shall, at Tenant's expense, prepare and submit the required plans and all related bonds and other required financial assurances; and Tenant shall carry out all work required by such clean-up plans at its sole and exclusive expense.

5. City Rights and Obligations.

5.1 Rented Premises Upkeep. City will maintain and repair the structural components, such as the foundation, walls, roof, hangar door, and floor structures of the Rented Premises, except as noted in paragraph 4.1. Tenant will pay for electricity, water, sewer, and routine building maintenance. Repair and replacement required as a result of the negligent or willful conduct of Tenant, its employee's, agents, or invitees shall be the responsibility of Tenant.

5.2 Inspection. It is understood and agreed that the City shall have the right to enter upon the Rented Premises at any time to insure maintenance, security, and safety of the Rented Premises, and compliance with the terms and conditions of the Agreement and Airport Rules and Regulations. If any deficiency in compliance with the Agreement is found, including any fire or accident hazard, Tenant shall be so informed, and shall within five (5) days of notice rectify the hazard.

5.3 Aerial Approaches. City reserves the right to take any action it considers necessary to protect the aerial approaches of the Airport against obstruction and interference, together with the right to prevent Tenant from erecting, or permitting to be erected, any building or other structure on or adjacent to the Airport, which in the opinion of the City, would limit the usefulness of the Airport or constitute a hazard to aircraft.

5.4 Protection Clause. City reserves unto itself, its successors, and assigns, for the use and benefit of the public, a right of flight for the passage of aircraft in the airspace above the surface of the Rented Premises, together with the right to cause in said airspace such noise as may be inherent in the operation of aircraft, now known or hereafter used, for navigation of or flight in the said airspace, and for use of said airspace for landing on, taking off from, or operating on the Airport.

6. Insurance and Indemnification.

6.1 Insurance. Tenant shall obtain and maintain continuously in effect at all times during the term of the Agreement, at Tenant's sole expense, the following insurance:

a. Comprehensive General Liability insurance with a Combined Single Limit (CSL) of not less than One Million (\$1,000,000) Dollars including Premise Liability and Product's and Completed Operations per occurrence protecting City against any and all liability by reason of Tenant's conduct incident to the use of the Rented Premises or resulting from any accident occurring on or about the roads, driveways, or other public places on the Airport, including the runways and taxiways, used by Tenant at Airport, caused by or arising out of any negligent or wrongful act or omission of Tenant, its agents, employees, contractors, or subcontractors.

b. Hangar Keepers Liability insurance in the minimum amount of Five Hundred Thousand (\$500,000) Dollars per occurrence protecting City against any and all liability by reason of Tenant's conduct incident to the use of Hangar B for aircraft storage, caused by or arising out of any negligent or wrongful act or omission of Tenant.

c. All insurances as required under the applicable Airport Minimum Standards for Commercial Aeronautical Activities shall be provided to City.

d. All insurance requirements specified herein above shall name City as an additional insured with instructions that the insurance carrier will notify City if the LESSEE defaults on premium payments, and shall require that the insurance carrier notify City thirty (30) days prior to any event leading to the material modification or cancellation of the policy. The additional insured status of the City must be primary and non-contributory. Waiver of Subrogation in favor of the City is to be included.

e. All insurance required to be carried by Tenant hereunder shall be issued by responsible insurance companies qualified to do business in the State of Florida. Tenant shall furnish City copies of all insurance policies or certificates evidencing the existence and amounts of such insurance as required under the Agreement for all activities provided by Tenant. Such certificates are attached hereto as Exhibit "B", Liability Insurance Certificates. Copies of said certificates of insurance shall be provided to City with each annual renewal and at least ten (10) days prior to the expiration thereof for each activity offered by Tenant.

f. It is the responsibility of Tenant to keep required insurance in effect and provide such evidence to the City. Failure to provide proof of insurance at any time, to the satisfaction of the City, shall be grounds for termination of the Agreement.

6.2 Casualty. In the event the Rented Premises or the means of access thereto shall be damaged by fire or any other cause, the rent payable hereunder shall not abate provided that the Rented Premises is not rendered unusable by such damage. If the Rented Premises is rendered unusable and City elects to repair the Rented Premises, the rent shall abate for the period during which such repairs are being made, provided the damage was not caused by the acts or omissions of Tenant, its employees, agents, or invitees, in which case the rent shall not abate. If the Rented Premises is rendered unusable and City elects not to repair the Rented Premises, this Agreement shall terminate.

6.3 Indemnification. Tenant for itself and on behalf of its officers, agents, employees, assigns, and contractors, does agree to assume liability for and indemnify, hold harmless, and defend the City, its commissioners, mayor, officers, employees, agents, and attorneys of, from, and against all liability and expense, including reasonable attorney's fees, in connection with any and all claims, demands, damages, actions, causes of action, and suits in equity of whatever kind or nature, including claims for personal injury, property damage, equitable relief, or loss of use, arising directly or indirectly out of or in connection with any negligent and/or deliberate act or omission of Tenant, its officers, employees, agents, and representatives. Tenant's liability hereunder shall include all attorney's fees and costs incurred by the City in the enforcement of this indemnification provision. This includes claims made by the employees of Tenant against the City, and Tenant hereby waives its entitlement, if any, to immunity under Sections 440.11, Florida Statutes. The obligations contained in this provision shall survive termination of this Agreement and shall not be limited by the amount of any insurance required to be obtained or maintained under the Agreement. Nothing contained in the foregoing indemnification shall be construed to be a waiver of any immunity or limitation of liability the City may have under the doctrine of sovereign immunity of Section 768.28 Florida Statutes.

6.4 Indemnification for Toxic Wastes. Tenant, for itself and on behalf of its officers, agents, employees, assigns, and contractors, does agree to assume liability for and indemnify, hold harmless, and defend the City, its commissioners, mayor, officers, employees, agents, and attorneys of, from, and against loss, damage, cost, or assessment which may result from or in any manner be related to the deposit, spill, discharge, or other release, and or the presence, use, distribution, or disposition of any toxic substance, chemical, metal, petroleum product, or hazardous or toxic waste, or any other substance or derivative. This provision shall survive the termination of this Agreement.

7. Default.

The Agreement shall be breached and considered in default if any one of the following events occurs:

- a. Tenant shall default in the payment of any rental payment hereunder; or
- b. Tenant shall default in the performance of any other covenant herein, such default shall continue for ten (10) days after receipt of notice from the City; or

c. A petition is filed by or against Tenant under the Bankruptcy Act or any amendment thereto (including a petition for reorganization or an agreement) after the effective date of this Agreement; or

d. Tenant assigns his/her property for the benefit of creditors; or

e. City determines after an inspection the Tenant is not in compliance with the terms of the Agreement; or

f. Tenant is conducting or allowing a commercial activity at, from, or around the Rented Premises without City approval or without the issuance of a Commercial Aeronautical Activity Permit for such activity on the Airport; or

g. Tenant shall default in the performance or observances of the agreements, conditions, or covenants required to be performed or observed by the Tenant under the terms of the Agreement or shall violate any of the Airport Rules and Regulations; or

h. City shall be entitled to terminate the Agreement upon the conviction of Tenant or any of Tenant's officers, managers, or employees of any crime involving moral turpitude and relating to the Agreement of Tenant's operations hereunder.

In the event of any breach of the Agreement by the Tenant, City shall, at their earliest option, have the right to terminate the Agreement, and proceed with termination as set forth in Section 8 herein.

8. Termination.

8.1 Without Cause. Tenant may terminate the Agreement by giving ninety (90) days written notice to the City. Tenant shall be reimbursed for any prepaid rent on a pro-rated basis during the payment period.

8.2 Cause. Any violation of the terms and conditions of the Agreement shall be sufficient cause for the immediate termination of the Agreement. City shall give ten (10) days notice to the Tenant to correct said violations, and if said violations are not completely cured within said ten (10) day period, the Tenant is subject to immediate eviction. Tenant agrees to pay all costs of such action, including reasonable attorney's fees, and in addition, shall be fully responsible for all costs required to correct damages to the Rented Premises caused by the Tenant.

8.3 Immediate Termination. The Agreement shall be terminated immediately if the Tenant shall become insolvent or bankrupt, is convicted of a felony, or makes an assignment for the benefit of creditors after the effective date of this Agreement.

8.4 Attorney Fees. In the event of a default as defined herein, or if an action for termination needs to be instituted pursuant to this paragraph, Tenant shall pay to the City all reasonable attorney's fees and costs incurred by the City in the enforcement of the Agreement.

8.5 Re-Entry. It is further understood and agreed between the parties hereto that in the event of any breach of any covenant or agreement on the part of the Tenant to be performed and provided, that if such breach is not remedied by the Tenant after reasonable notice in writing to it by the City, the City may re-enter and terminate this tenancy by giving the Tenant thirty (30) days written notice, to quit the Rented Premises. City shall at all times be entitled to recover by all lawful means any and all damages, including reasonable attorney's fees and costs, sustained by it through the breach of any said covenants and agreements on the part of the Tenant to be performed.

8.6 Obligation Upon Termination. Upon termination of the Agreement or occurrence of a termination event, all obligations of either party hereunder to the other shall cease and terminate,

except as specifically provided herein, and the Tenant agrees it shall immediately quit, surrender, and return peaceable and quiet possession of the Rented Premises, including all improvements, to the City in as good order and condition as existed at the time of the initial occupancy and only reasonable wear and tear being excepted. Tenant shall have the right at any time during said term, or any renewal, or extension thereof; to remove its trade fixtures and equipment situated on the Rented Premises which were installed, or placed by it, at its expense, in, on, or about the Rented Premises, subject, to any valid lien which City may have thereon for unpaid rents, fees, taxes, or charges. Tenant shall be liable for any and all damage to the Rented Premises caused by Tenant's use, including, but not limited to, bent or broken interior walls, damage to unsealed floors due to fuel oil spillage, or doors damaged due to improper use or negligence by Tenant. All moveable personal property shall be removed by the Tenant on or before the expiration of the Agreement term and all property not so removed shall be deemed abandoned by the Tenant.

8.7 Continuing Obligation. Tenant's obligations under Paragraph 4.12 and Paragraphs 6.3 and 6.4 of the Agreement shall survive the expiration or termination of the Agreement or any renewal thereof.

9. Notice.

9.1 Any notice required to be served by either City or Tenant upon the other may be served by certified mail, return receipt requested, postage prepaid, addressed as follows:

If to City, address to: City Manager
 City of Fernandina Beach
 204 Ash Street
 Fernandina Beach, FL 32034

With a copy to Airport Manager, address to: Airport Manager
 Fernandina Beach Municipal Airport
 700 Airport Road
 Fernandina Beach, FL 32034

If to Tenant, address to: George Aikens
 602 Airport Road
 Fernandina Beach, FL 32034

9.2 Notices will be deemed to have been received on the date of receipt as shown on the return receipt.

9.3 Tenant Contact Telephone Number: **970-373-3295**

9.4 It shall be the Tenant's responsibility to keep the address and phone number contained in the Agreement up to date and accurate.

10. Miscellaneous Provisions

10.1 Assignment or Sublease. Tenant is authorized to provide commercial aircraft storage within Hangar A without prior written approval of the City. Tenant shall not assign or sublease any other purpose or use his or her interest in the Agreement without express written approval of the City.

10.2 Independent Contractor. In its use of the Rented Premises, Tenant acts as an independent contractor and not as an agent of City. The selection, retention, assignment, direction, and payment of Tenant's employees shall be the sole responsibility of Tenant, and City shall not attempt to exercise any control over the daily performance of duties of Tenant's employees.

10.3 Subordination. The Agreement shall be subordinate to the provisions of any existing or future agreement between City and the United States, relative to the operation or maintenance of the Airport, the execution of which has been or may be required as a condition precedent to the expenditure of Federal funds for the development of the Airport.

10.4 Entire Agreement. The Agreement constitutes the entire agreement and understanding between the parties, and as of its effective date supersedes all prior or independent contracts or agreements between the parties covering the subject matter hereof. Any change or modification hereof must be in writing signed by both parties.

10.5 Headings. Section titles and paragraph titles of the Agreement are inserted only as a matter of convenience and for reference and in no way define, limit, augment, or describe the scope, content, or intent of any provision of the Agreement.

10.6 Severability. If a provision hereof shall be finally declared void or illegal by any court or administrative agency having jurisdiction, the entire agreement shall not be void, but the remaining provisions shall continue in effect nearly as possible in accordance with the original intent of the parties.

10.7 Force Majeure. Neither City, nor Tenant, shall be deemed to be in violation to the Agreement if either is prevented from performing any of its obligations hereunder by reasons of strikes, boycotts, labor disputes, embargoes, shortages of materials, acts of God, acts of public enemy, acts of superior governmental authority, weather conditions, floods, riots, rebellions, acts of sabotage, or any other circumstances for which it is not responsible, or which are not under its control, provided; however, that this paragraph does not apply to failure by Tenant to pay the rentals, fees, taxes, and charges set forth herein. In any such case a prompt written notice shall be given to the other party of the existence of such causes and of readiness to resume performance upon the removal, or non-existence thereof.

10.8 Governing Law, Venue, and Attorney's Fees. The Agreement is to be construed in accordance with the laws of the State of Florida. Venue for any state law action brought hereunder shall be Nassau County, Florida. Venue for any federal action brought hereunder shall be the U.S. District Court, Middle District of Florida, Jacksonville Division. In the event of any litigation between the parties regarding the breach and/or enforcement of the Agreement, the prevailing party shall be entitled to its reasonable attorney's fees and costs, including at the appellate court level, from the non-prevailing party as determined by a court of competent jurisdiction.

10.9 Waiver. The waiver by either party of any covenant or condition of the Agreement shall not thereafter preclude such party from demanding performance in accordance with the terms hereof.

10.10 Successors Bound. The Agreement shall be binding on and shall insure to benefit of the heirs, legal representatives, and successors of the parties hereto.

10.11 Radon Gas Notice. Pursuant to Florida Statutes Section 404.056(8), City hereby makes, and Tenant hereby acknowledges, the following notification:

a. Radon Gas: Radon is a naturally occurring radioactive gas that, when it has accumulated in a building in sufficient quantities, may present health risks over time. Levels of radon that exceed federal and state guidelines have been found in buildings in Florida. Additional information regarding radon and radon testing may be obtained from your county public health unit.

b. City makes no representation or warranty with respect to the presence or absence of radon on the Rented Premises, and Tenant shall undertake such inspection or testing as it deems

necessary or convenient to assure itself as to the presence or absence of radon.

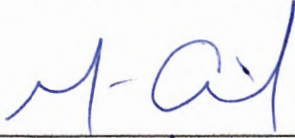

IN WITNESS WHEREOF, the parties have executed this Agreement as of the day and year first above written.

IN WITNESS WHEREOF, the parties have executed this Agreement as of the day and year first above written.

CERTIFICATE OF INSURANCE

This is to certify to
(Certificate Holder):

City of Fernandina Beach
204 Ash Street
Fernandina Beach, FL 32034

The following policy(ies)
Have been issued to:

Advanced Aero Technologies Group, LLC
622 Ed Beegles Ln.
Greeley, Colorado 80632

AIRPORT POLICY INFORMATION:

AIRPORT POLICY NO: AP010064 10 **POLICY PERIOD:** FROM: April 29, 2020 TO: April 29, 2021
THIS COVERAGE IS EFFECTIVE 12:01 A.M. February 08, 2021
INSURANCE COMPANY: OLD REPUBLIC INSURANCE COMPANY

LIABILITY COVERAGES:

		LIMITS OF LIABILITY			
<input checked="" type="checkbox"/>	Comprehensive General Liability	\$	Each Person	\$ 1,000,000	Each Occurrence*
<input checked="" type="checkbox"/>	Completed Operations / Products Liability	\$	Each Person	\$ 1,000,000	Each Occurrence*
<input checked="" type="checkbox"/>	Hangarkeepers Liability	\$ 500,000	Each Aircraft	\$ 1,000,000	Each Loss*
<input type="checkbox"/>	Premises Medical Payments	\$	Each Person	\$	Each Accident*
<input type="checkbox"/>	Not Applicable	\$	Each Person	\$	Each Loss*

DEDUCTIBLES:

<input checked="" type="checkbox"/>	Hangarkeeper's Liability	\$ 2,500 Piston	\$10,000 Turbine	\$25,000 Airliner
<input type="checkbox"/>	Premises Liability	\$	Each claim with respect to Property Damage	

*Refer to the Policy; an annual aggregate limit may apply to some coverage(s).

THIS CERTIFICATE HOLDER IS:

- Included as a Loss Payee for Aircraft Physical Damage Coverage, and included as an additional insured.
- Provided Breach of Warranty Coverage on Aircraft Physical Damage as their interest may appear not to exceed 90% of the Insured Value.
- Included as an Additional Insured, but only with respect to operations of the Named Insured.
- Provided a Waiver of Subrogation, but only with respect to operations of the Named Insured.

OTHER COVERAGES / CONDITIONS / REMARKS:

The insurance provided by our policy to the Named Insured is primary, non-contributory, and not excess coverage for the Named Insured, and only with respect to the operations of the Named Insured. *Aggregate Limit is same as Occurrence Limit.

Coverage is not extended to the certificate holder to claims arising out of their legal liability as manufacturers, repairers, suppliers or servicing agents and shall not operate to prejudice the Company's right of recourse against the additional insured as manufacturers, repairers, suppliers or servicing agents where such rights of recourse would have existed had this agreement not been effected under this certificate.

Provision has been made to give the Certificate Holder thirty (30) days notice of cancellation - ten (10) days for nonpayment of premium - of any policy above; however, the Company assumes no responsibility for the failure to provide such notice.

This certificate is issued as a matter of information only and confers no rights upon the certificate holder. This certificate does not amend, extend, or alter the coverage, terms, exclusions, conditions, or other provisions afforded by the policies referenced herein nor does it constitute a contract between the issuing insurer(s), authorized representative, or producer.

OLD REPUBLIC INSURANCE COMPANY

WAIVER OF SUBROGATION

In consideration of a premium charge of \$Included, it is agreed that the Company hereby waives its right of subrogation against the following with respects to loss or damage arising under liability coverage as set forth under this policy, but only to the extent that the "named insured" has waived their right of subrogation.

This waiver shall not prejudice the Company's right of recourse for damages arising from the manufacture, repair, sale, or servicing of the aircraft where such right of recourse would have been elected had this Endorsement not been effected under this policy.

City of Fernandina Beach
204 Ash Street
Fernandina Beach, FL 32034

Nothing herein contained shall vary, alter, waive or extend any of the terms, provisions, representations, conditions or agreements of the policy other than as above stated.

This endorsement becomes effective FEBRUARY 08, 2021 to be attached to and hereby made a part of Policy No. AP 01006410 issued through OLD REPUBLIC INSURANCE COMPANY, issued to: ADVANCED AERO TECHNOLOGIES GROUP, LLC
622 ED BEEGLES LN.

AP158 (05/05)

OLD REPUBLIC INSURANCE COMPANY

ADDITIONAL INSURED

It is agreed that the following is hereby included as an additional "insured" under liability coverages, but only as respects operations of the "Named Insured". This agreement shall not operate to prejudice the Company's rights of recourse against the following as manufacturers, repairers, suppliers or servicing agents where such right of recourse would have existed had this endorsement not been effected under this policy:

City of Fernandina Beach
204 Ash Street
Fernandina Beach, FL 32034

The coverage limits afforded hereunder shall be included within and not in addition to the limits applicable to the "named insured".

Nothing herein contained shall vary, alter, waive or extend any of the terms, provisions, representations, conditions or agreements of the policy other than as above stated.

This endorsement becomes effective FEBRUARY 08, 2021 to be attached to and hereby made a part of Policy No. AP 01006410 issued through OLD REPUBLIC INSURANCE COMPANY, issued to: ADVANCED AERO TECHNOLOGIES GROUP, LLC
622 ED BEEGLES LN.

Introduction

Fernandina Beach Municipal Airport (FBMA-FHB) is municipally owned and operated by the City of Fernandina Beach, Florida as a General Aviation Reliever Airport. These Airport Rules and Regulations (R&R) are intended to promote the health, safety, interest, and welfare of the public in general and in particular the operators, lessees, tenants, consumers, and users of FBMA, and to promote the safe, orderly, and efficient use of the Airport.

These R&R apply to all users, aeronautical and otherwise, of FBMA property, are not all-inclusive, and reinforce and emphasize federal, state, and local statutes, laws, ordinances, and regulations as well as leases and agreements that may apply (see Appendix A - References). In addition the content of Appendixes A and B attached hereto and made a part hereof shall be adhered to by all users of FBMA. In the event of a conflict between these R&R and a lease or other agreement, the lease or other agreement shall govern. Individual Airport users must adhere to the applicable provisions of these R&R and its attached Appendices, as well as any applicable leases and agreements, and all pertinent federal, state, and local statutes, laws, ordinances, and regulations that may be applicable to their operations.

Violations of the R&R may result in revocation of Airport access privileges, denial of use of the Airport, termination of leases or other agreements, and/or prosecution under applicable laws. Perpetration of violation(s) shall be considered as a factor in renewing or not renewing a violator's application or permit/lease renewal. Use of Airport property without approval or in conflict with these R&R is considered a trespass. Nothing in these R&R is intended to preclude any authorized City personnel from taking other action authorized by law. Section 6 of these R&R provides an appeal process to be followed in the event a user of the Airport is aggrieved by the interpretation and application of the R&R.

These R&R may be amended as required, however, every three years an updated revision should be published.

Section 1 – General

1.01 COMPLIANCE AND RESPONSIBILITIES:

- a. By publication of these R&R, all persons based at FBMA will be deemed to have knowledge of the contents herein. Copies of these R&R will be distributed to all tenants and leaseholders, posted at the Airport, and available through the Airport Manager's office.
- b. Entry upon/into the Airport by any person shall be deemed to constitute an agreement by such person to comply with and be governed by these R&R. All persons employed on or using the Airport shall cooperate with the Airport Manager or his designated representatives to enforce these R&R.
- c. Airport tenants/leaseholders shall be responsible for compliance with all requirements of these R&R applicable to them for their exclusive areas and they shall be held liable for any fines, penalties, or other monetary assessments imposed upon the City by any agency having jurisdiction with respect to any violations involving these areas. Any user, who by their intentional or unintentional action or activity, cause the City to be fined, cited, sued, or charged unnecessary fees/fines, will be responsible for reimbursement of said fines/fees upon demand to the City.
- d. Any permission granted by the Airport Manager or the City under these R&R is conditioned upon the payment of any and all applicable fees and charges established by the City.
- e. Voiding of any particular rule or regulation contained herein shall not affect the validity of the remainder of these regulations.

1.02 EMERGENCY PROCEDURES AND DIRECTIVES:

- a. Under emergency conditions, e.g., a natural disaster, the Airport Manager, or designated representative, is empowered to suspend these R&R, or any part thereof, including ordering persons to leave the Airport or portions of the Airport and prevent access to such areas for such time as may be necessary, and to issue such directives and take such actions as is necessary to protect life and property and ensure the safe operation of the Airport. Such directives and actions have the full power of regulation as long as the emergency exists.
- b. In the event of an extreme threat, condition, or event the Airport Manager shall have, in his discretion, the authority to close the Airport in its entirety or any portion thereof to air traffic, to prohibit aircraft landing and/or taking off, and may delay or restrict any flight or other aircraft operation.
- c. The Airport Manager may also, in his discretion, temporarily close the Airport due to periods of adverse climatic conditions when such action is considered necessary and desirable to avoid endangering persons or property.
- d. Under no circumstance shall an authorized Airport closure or restriction constitute grounds for reimbursement of any expense, loss of revenue, or damage incurred by any operator, lessee, or any other entity.

1.03 LIABILITY:

- a. The City shall not be responsible for loss, injury, or damage to persons or property by reason of fire, theft, vandalism, wind, flood, earthquake, collision, strikes, war, acts of terrorism, or act of God, nor shall the City be liable for injury to persons while on the Airport.
- b. The City, City Commission, Airport, and the Airport Manager, individually and collectively, and their representatives, officers, employees, agents, and volunteers shall be held harmless and shall not be liable for loss, loss of use, damage, or injury to persons or property arising out of any accident, incident, or mishap of any nature whatsoever, or from any cause whatsoever to any individual, aircraft or property occurring on or from the Airport or in the use of any facility situated on Airport property.

1.04 FACILITIES AND PROPERTY:

- a. Operational deficiencies regarding buildings, structures, equipment, utilities, or other property owned by the City shall be reported to the Airport Manager so that repairs, as necessary, may be made in a timely manner.
- b. No person shall alter, add to, or erect any building or sign on the Airport or make any excavation on the Airport without prior written approval of the City.
- c. Any person causing, or responsible for damage to or destruction of Airport property of any kind, including facilities, equipment, real property, fixtures or appurtenances, shall be required to pay the City for the full amount of said damage. Any such damage shall be immediately reported to the Airport Manager.

1.05 OTHER LAWS:

All applicable provisions of Federal Aviation Regulations (FAR), federal, state, and local regulations, laws, statutes, and/or ordinances now in existence or hereafter promulgated are hereby adopted as part of the R&R for FBMA.

1.06 USE AND ENJOYMENT OF AIRPORT PREMISES:

- a. All FBMA users are required to abide by applicable federal, state, and local statutes and ordinances regarding personal conduct on Airport property.
- b. Any person who causes injury to any person or damages equipment or property on the Airport shall be liable for such injuries and/or damages.
- c. All commercial activities shall be conducted in accordance with the FBMA Minimum Standards for Commercial Activities (Minimum Standards).

- d. No person may throw, shoot, or propel any object nor shine a light or laser in such a manner as to interfere with or endanger the safe operation of any aircraft taking off from, landing at, or operating on the Airport or any vehicle operating on the Airport.

1.07 ENTRY UPON AND USE OF AIRPORT:

- a. Entry into FBMA property shall be through designated gates.
- b. All FBMA users shall observe and obey all posted signs, fences, and barricades regarding activities and demeanor while on the Airport.
- c. Use of any FBMA facility for other than authorized purposes is prohibited.
- d. Nothing herein contained shall be construed to limit the use of any area of the Airport by its employees, approved contractors, or to prevent law enforcement or fire department personnel from acting in their official capacity.
- e. No person, except representatives of the press on duty or during official announcements, shall take still, motion, or sound pictures for commercial purposes on non-leasehold Airport property without first obtaining written permission of the Airport Manager.
- f. No camping is permitted on FBMA without written permission of the Airport Manager.

1.08 ACCESS TO THE AIRPORT OPERATIONS AREA:

- a. No person may, without authorization of the Airport Manager, enter the FBMA Airport Operations Area (AOA) except:
 - 1. Persons under the direct supervision of a tenant or leaseholder
 - 2. Persons or entities and their employees performing aeronautical activities
 - 3. Passengers, under appropriate supervision, who enter for the purpose of enplaning or deplaning an aircraft
 - 4. Visitors to Fixed Base Operations (FBO)
 - 5. Emergency vehicles
- b. Except for entry/exit, all ground vehicle gates will be secured. Vehicle operators using an Airport perimeter gate shall ensure the gate closes prior to leaving the vicinity; additionally, should a vehicle operator observe any suspicious vehicles or persons gain (or attempt to gain) access to the airside, they shall notify law enforcement immediately.
- c. Persons who have been provided an Airport access device or access code for the purpose of obtaining access to the AOA shall use only Airport issued devices and shall not duplicate or otherwise distribute or disseminate the same to any other person unless the Airport Manager provides written permission.
- d. No person shall walk or drive on taxiways or runways without written authorization from the Airport Manager.
- e. It shall be the responsibility of a tenant, lessee, or contractor to restrict persons or vehicles to their exclusive use area or leasehold and to establish operating procedures for them, reviewed by the Airport Manager for appropriateness.
- f. No one under 16 years of age will be allowed to enter the AOA except under the direct supervision of an adult or unless visiting an FBO.
- g. No person shall assist an unauthorized individual in accessing the AOA.

1.09 ANIMALS:

- a. Animals, including service animals, are permitted on Airport property only when under the control of their owners/handlers; any waste must be properly collected and removed by the animal's owner/handler
- b. No person shall commit any act to encourage the congregation of birds or other animals on the Airport.

1.10 CARGO, MATERIAL STORAGE, AND ABANDONED PROPERTY:

- a. Unless otherwise provided for by lease or other contractual agreement, no person, firm, partnership, or corporation, shall use any area of the Airport, including buildings, either

privately owned or publicly owned, for the storage of non-aeronautical related cargo, equipment, or any other property without written permission of the Airport Manager.

- b. Any property, aircraft, or vehicle, determined by the Airport Manager to be abandoned, disabled, or which creates an operations problem, nuisance, security or safety hazard, or which otherwise is placed in an illegal, improper, or unauthorized manner, will be removed, stored, and/or disposed of at the owner's expense. The City shall not be liable for any damage to the property or loss or diminution of value that may be caused by the act of removal.

1.11 FIREARMS AND WEAPONS:

Firearms are allowed on FBMA only as permitted by state and federal statutes.

1.12 ADVERTISING, COMMERCIAL SPEECH, AND SIGNAGE:

- a. No person shall post, circulate, distribute, or display written or printed materials or signs on Airport property or facilities or on motor vehicles and aircraft without prior written permission from the Airport Manager. However persons approved to be on Airport property may use vehicles on Airport property that display advertising, pictures, or written material.
- b. Airport entry signage or signage in public areas of the Airport must meet specifications of City codes and be approved by the Airport Manager.

Section 2 – Aeronautical Operations

2.01 COMPLIANCE WITH ORDERS:

All aeronautical activities at FBMA shall be conducted in compliance with applicable FARs, federal and Florida statutes, and local ordinances, these Rules and Regulations, Minimum Standards, and directives/resolutions, as currently written or as may be amended from time to time.

2.02 HOLD HARMLESS:

The aircraft owner, pilot, agent, or his or her duly authorized representative agrees to release, discharge and hold harmless the City, its City Commission, the Airport, and its employees of and from liability for any damage which may be suffered by any aircraft and its equipment, and for personal injury or death. The use of the AOA and related facilities shall constitute acceptance of the terms of this provision, these R&R and other Airport procedures and operating directives.

2.03 NEGLIGENT OPERATIONS PROHIBITED:

- a. Aircraft operators shall not land; take off; taxi; or park an aircraft on any area that has been restricted to a maximum weight bearing capacity of less than the weight of the aircraft. It shall be the aircraft owner's responsibility to repair any damage to the Airport's runways, taxiways, or aprons caused by excessive aircraft weight loading.
- b. No person shall operate any equipment or device on the Airport that will interfere with any aircraft radio communication frequency or any aircraft navigational aid.

2.04 AIRCRAFT ACCIDENTS/INCIDENTS, AIRWORTHY, DISABLED, AND DERELICT AIRCRAFT:

- a. The owner or operator of any aircraft involved in an accident or incident on the Airport, resulting in any injury or death or damage to property shall immediately notify the appropriate emergency response agencies, the Airport Manager, and other governmental agencies as applicable.
- b. The pilot or owner of an aircraft involved in an accident or incident shall be responsible for all costs associated with the accident or incident, including but not limited to, wreckage removal/disposal, environmental clean up, and repair or replacement of property.
- c. Disabled aircraft shall be removed from runways and/or taxiways as quickly as practicable.

- d. Disabled and derelict aircraft shall not be permitted on the tie-down or ramp areas unless in response to an emergency and with written approval of the Airport Manager.
- e. If the owner of an aircraft fails for any reason to remove a disabled or derelict aircraft from the Airport property as may be requested, the Airport Manager may cause the removal and storage or disposal of such disabled or derelict aircraft at the sole expense of the owner.

2.05 AIRPORT OPERATIONAL AREA RESTRICTIONS:

- a. Unless contrary to federal regulations and/or grant assurances, the City shall have the authority to designate or restrict the use of runways or other operational areas at the Airport with respect to, but not limited to, the following:
 - 1. Experimental Flights (Advance notification to Airport Manager of first flight);
 - 2. Equipment Demonstration;
 - 3. Air Shows;
 - 4. Parachute Operations;
 - 5. Banner Towing Operations (Permit required);
 - 6. Aircraft Type.
- b. No kites, model airplanes, rockets, tethered unmanned balloons, or other objects constituting a hazard to aircraft operations shall be operated on the Airport.

2.06 AIRCRAFT PARKING:

- a. No person shall use any area of the Airport for parking and/or storage of aircraft unless otherwise provided for in a lease or other agreement without the written permission of the Airport Manager. If any person uses unauthorized areas for aircraft parking, the aircraft may be removed by or at the direction of City, at the risk and expense of the owner, without liability for damage that may arise from or out of such removal or storage.
- b. No person shall leave an aircraft parked and unattended on the Airport unless it is in a hangar or properly locked and secured with either wheel chocks and/or tie-down ropes. Owners of such aircraft shall be held responsible for any damage resulting from failure to properly comply with this provision.
- c. Articles left in aircraft are the sole responsibility of the aircraft owner/operator. The City is not responsible for theft or vandalism of said articles.

2.07 STARTING AND RUNNING AIRCRAFT ENGINES:

- a. No aircraft engine will be started or operated inside or taxied from/into any hangar or under the roofline of a hangar, whether said hangar is enclosed or not. This shall not be construed as prohibiting the use of tractors, with National Fire Protection Association (NFPA) approved exhaust systems, when moving aircraft within any hangar.
- b. Starting an aircraft when there is any flammable liquid on the ground in the immediate vicinity is prohibited.
- c. No person may run an engine of an aircraft parked on the Airport in a manner that propeller or jet blast could cause injury to persons, damage to any other property, or in any way hinder the safe operation of the Airport. In no case will the operator of an aircraft block any runway, taxiway, or taxi lane while conducting any maintenance/repair run-up.
- d. No full power aircraft engine run-ups are authorized between 2200 and 0700 hours local for maintenance purposes without written approval of the Airport Manager.

2.08 AIRCRAFT OPERATIONS:

- a. All aircraft operations shall be conducted in accordance with published FARs.
- b. Aircraft operators will familiarize themselves with published local noise abatement guidelines.

2.09 REPAIRING AND MAINTAINING AIRCRAFT:

- a. Aircraft owners, under self-maintenance operations, are permitted to fuel, wash, repair, or otherwise service their owned based aircraft utilizing their own equipment and their own employees, as outlined in FAR Part 43 “Maintenance, Preventative Maintenance, Rebuilding and Alteration” and/or as identified in provisions of written agreement.
- b. Aircraft maintenance or repair is permitted only on paved areas of the Airport.
- c. No aircraft or aircraft component shall be suspended or lifted utilizing the building or any component of the building.

Section 3 – Fire, Safety and Environment

3.01 GENERAL:

- a. All persons using the Airport shall exercise the utmost care to guard against fire and injury to persons and property.
- b. All activities at FBMA shall comply with applicable state, local, and National Fire Protection Association (NFPA) codes and standards now in existence or hereafter promulgated and not in conflict with FARs. All applicable codes, standards, and recommended practices are hereby adopted by reference as part of the R&R of the Airport. In the event of conflict, Florida Statute 633 and NFPA codes and/or FARs shall prevail.
- c. Any fire causing damage, regardless of the size of the fire or whether or not the fire has been extinguished, shall be reported immediately to the Fernandina Beach Fire Department as well as the Airport Manager.

3.02 SMOKING:

Smoking or carrying lighted smoking materials or striking matches or other incendiary devices, such as lighters, are not permitted:

- a. Within 50 feet of parked aircraft and fuel carriers not in motion; within 100 feet of aircraft being fueled or de-fueled, a fuel storage facility, or a flammable liquid spill;
- b. In any area on the Airport where smoking is prohibited by the City or leaseholder by means of posted signs;
- c. In any hangar, shop, or other building in which flammable liquids are stored or used, except in cases where specifically approved smoking areas have been designated for that purpose.

3.03 FIRE EXTINGUISHERS:

- a. All tenants or lessees of hangars, aircraft maintenance buildings or shop facilities shall maintain a minimum of one readily accessible, operable fire extinguisher that shall conform to applicable NFPA standards. Current inspection tags shall be left attached to each unit.
- b. No person shall tamper with any fire extinguisher equipment at the Airport or use the same for any purpose other than fire fighting or fire prevention.

3.04 OPEN FLAME OPERATIONS:

- a. The use of any equipment employing open flames or sparks within any aircraft storage area is prohibited. This excludes open flames utilized by lessees and tenants in the performance of aircraft maintenance approved by agreement.
- b. Lead and carbon burning, fusion gas and electric welding, blow-torch work, engine testing, and all operations involving open flames shall be restricted to the repair shops. During such operations, the shop shall be separated from the storage section by closing all doors and openings to the storage section.

3.05 STORAGE OF MATERIALS:

- a. No operator, tenant, or lessee on the Airport shall keep, store, stack, box, bag, or stock material or equipment in such a manner as to constitute a hazard to persons or property, obstructing any operation, littering, or in such a manner as to create any unsightly appearance.
- b. Storage of materials or equipment except for hoses attached to water spigots shall not be permitted outside buildings or hangers unless under approved sheds, within designated storage areas, or in designated parking areas.

3.06 HAZARDOUS WASTE AND MATERIALS:

- a. No person shall store, keep, handle, use, disperse, discharge, or transport at, in, or upon the Airport any hazardous materials in contravention of any regulatory measures.
- b. No more than five gallons of fuel in a container shall be stored in any building or structure on the Airport at any time. An approved fuel container shall be used at all times.
- c. All empty oil, paint, and varnish cans, bottles, or other containers shall be removed from the Airport in a timely manner and shall not remain on the floor, wall stringers, or overhead storage areas of the hangars, offices, shops, or other buildings and only those hazardous materials used in the maintenance of aircraft, engines, and components may be stored and utilized on the Airport.
- d. No person shall use volatile or flammable substances for cleaning hangar floors, hangars or other buildings on the Airport. Cleaning agents shall meet all federal, state, and local codes, regulations, and permit requirements.
- e. All persons on the Airport shall keep all premises, including floors, leased, or used by them, clean and clear of accumulation of oil, grease, and other flammable material and free of rags, waste materials, or other trash or rubbish or accumulated debris.
- f. Gasoline, oil, and solvent drums or receptacles shall not be stored within aircraft and/or vehicle operating areas nor be in excess of that required as current stock. Such materials shall be kept enclosed and covered in clearly marked and labeled housing.
- g. No person shall use, keep, or permit to be used or kept, any foul or noxious gas or substance at the Airport, or permit or suffer the Airport to be occupied or used in a manner offensive or objectionable to other users by reason of noise, odors, and/or vibrations, or interfere in any way with other occupants or those having business therein.
- h. No volatile substances such as fuels, grease, oil, dopes, acid, flammable liquids, solvents and other cleaning fluids, paints and contaminants of any kind, may be stored inside t-hangars, bulk hangar facilities, or other leased property from the City used for storage of aircraft unless included as part of a rental agreement or lease.
- i. All petroleum products, dopes, paints, solvents, acids, or any other hazardous waste shall be disposed of off the Airport and in compliance with all applicable regulatory measures and shall not be dumped or run into drains, on ramp aprons, catch basins, ditches, sewer systems, storm drains, or elsewhere on the Airport.
- j. No person shall store, keep, handle, use, dispose of, or transport at, in, or upon the Airport any Class A, Class B, or Class C explosives or Class A poison, as defined in the Federal Motor Carrier Safety Administration regulation for transportation of explosives and other dangerous articles, and other poisonous substances, solid, liquid, or gas, compressed gas, and/or radioactive article, substance, or material at such time or place or in such manner or condition that may, or may be likely, to unreasonably endanger persons or property.
- k. Cleaning of aircraft parts and other equipment shall preferably be done with non-flammable cleaning agents or solvents. When the use of flammable solvents cannot be avoided, only liquids having flash points in excess of 100⁰ F shall be used and special precautions shall be taken to eliminate ignition sources in compliance with good practice recommendations of the NFPA.

3.07 DOPING, SPRAY PAINTING, AND PAINT STRIPPING:

- a. No paint, varnish, or lacquer spraying of aircraft or motor vehicles is permitted inside any building or hangar on the Airport unless such facility was properly designed and constructed for such activity. Hand-held aerosol containers or a small air compressor powered automotive type touch up spray gun not to exceed 7 oz. capacity may be permitted for paint touchup, used outside and in a no wind situation, with the specific written approval of the Airport Manager.
- b. The use of “dope”, cellulose, nitrate, or cellulose acetate dissolved in volatile flammable solvents, within any hangar is prohibited.

3.08 SANITATION AND ENVIRONMENTAL POLLUTION:

- a. Each person while on Airport property shall conduct his/her activities so as to not cause litter, environmental pollution, or unsanitary conditions.
- b. No person shall unnecessarily or unreasonably or in violation of law, cause any smoke, dust, fumes, gaseous matter, or particulates to be emitted into the atmosphere or be carried by the atmosphere. Exceptions include normal emissions from internal combustion engines, jet engines, smoke from cigarettes, cigars, or pipes, or aircraft maintenance activities.
- c. Aircraft may not be washed with running water in hangars.
- d. Any person who experiences overflow or spillage of oil, grease, fuel, or similar contaminants anywhere on the Airport is responsible and shall take appropriate action in the control, containment, clean up, disposal, and rehabilitation of such hazardous spill. Failure to take appropriate action to clean the area shall result in the City providing the cleanup at the expense of the responsible party. If the responsibility for the spill cannot be promptly determined, the leaseholder will be held responsible for the clean up.
- e. Spills, such as, jet fuel, gasoline, fuel oil, hydraulic oil, motor oil, turbine oil, alcohol, glycol, and all similar chemicals that could be considered hazardous, that covers over 10 feet in any direction or is over 50 square feet in area, continues to flow or is otherwise a hazard to persons or property require notification to the Fernandina Beach Fire Department as well as to the Airport Manager. The spill shall be investigated to determine the cause, to determine whether emergency procedures were properly carried out, and to determine the necessary corrective measures.
- f. In the event of spillage, fuel delivery devices and other vehicles shall not be moved or operated in the vicinity of the spill until the spillage is removed. A fireguard shall be promptly posted to the spill area.
- g. No garbage, empty boxes, crates, rubbish, trash, papers, refuse, and/or other litter of any kind shall be placed, discharged, or deposited on the Airport, including cigarettes, cigars, and matches, except in receptacles specifically provided for such purpose.
- h. The burning of garbage, empty boxes, crates, rubbish, trash, papers, refuse, and/or other litter of any kind is prohibited. With prior written permission of the Airport Manager, Fire Department personnel may engage in training exercises that require controlled burning.
- i. Any person discarding chemicals, paints, oils, batteries, or any products, which may not be discarded in a routine manner, will adhere to all applicable federal, state, and local laws and regulations.
- j. No fuel, grease, oil, dopes, paints, solvents, acid, flammable liquids, or contaminants of any kind shall be allowed to flow into or be placed in any Airport sanitary sewer system or storm drain system.
- k. No person shall dispose of any fill or building, discarded, or waste materials on Airport property except as approved in writing by the Airport Manager and appropriate City authorities.

3.09 ELECTRICAL EQUIPMENT AND LIGHTING SYSTEM:

- a. Extension lights and all portable and mobile lighting equipment used in and around aircraft hangars, shops, buildings, and other areas on or near combustible materials shall be explosion proof and meet NFPA standards. No portable lamp assembly shall be used without a proper protective guard or shield over such lamp assemblies to prevent breakage.
- b. All power operated equipment or electrical devices including hangar interior lights shall be shut off when not in use.
- c. A low current, constant current/constant voltage, or demand type battery charger with a maximum short term output charge rate exceeding seven amps, or a continuous trickle charge rate exceeding two amps, may not be used when an aircraft is located inside or partially inside a hangar.

3.10 HEATING EQUIPMENT:

- a. All heating equipment and fuel burning appliances installed or used on FBMA shall comply with the requirements of the State of Florida and the Florida Fire Prevention Code.
- b. Space heaters may be utilized when attended in hangars so long as the heater has a clear radius of 10 feet from aircraft, or any other object, and fire prevention/safety measures are observed.

Section 4 – Fueling Operations

4.01 GENERAL:

- a. All fuel handled on the Airport shall be treated with due caution and prudent attention with regard to the rights and safety of others so as not to endanger, or likely to endanger, persons or property.
- b. All aircraft fueling operations, including self-fueling, shall be in accordance with NFPA 407 “Standards for Aircraft Fuel Servicing.”
- c. No aircraft shall be fueled or drained of fuel while within the confines of any building, hangar, or enclosed space.
- d. Fueling of aircraft is allowed only on paved surfaces.
- e. In accordance with FAA Order 5190.6B “Airports Compliance Handbook,” any person self-fueling with their own equipment requires authorization and permit from the Airport Manager confirming compliance with all orders, procedures, standards, and these R&R regarding fueling operations.
- f. Airport tenants involved in fueling operations, including those self-fueling, shall maintain an adequate supply of fuel absorbent materials readily available for use in the event of a fuel spill.
- g. No person shall engage in aircraft fueling or de-fueling without readily accessible, adequate, operational fire extinguishing equipment at the point of fueling.
- h. Aircraft being fueled shall be positioned so that aircraft fuel system vents or fuel tank openings are not closer than 25 feet from any terminal building, hangar, or service building.
- i. During fueling operations, no person shall use any material or equipment that is likely to cause a spark or ignition within 100 feet of such aircraft or vehicle.
- j. No aircraft shall be fueled or de-fueled while passengers are on board unless a passenger boarding device is in place at the cabin door of the aircraft, the door is open, and a flight crew member or ground person is at or near the cabin door.
- k. Fueling or de-fueling operations on the Airport shall not be conducted during periods of dangerous thunderstorm activity or if an electrical storm is observed within three statute miles of the Airport.
- l. Should a fire occur during the fueling of an aircraft, fueling shall be discontinued, all emergency valves and dome covers shall be shut down, and the Fire Department notified immediately.

- m. Any malfunction or irregularity detected on or within the aircraft being refueled or de-fueled shall be brought to the attention of the fueling operator immediately.

4.02 ENGINE OPERATIONS:

- a. No aircraft shall be fueled or de-fueled while one or more of its engines are running or is being warmed by external heat.
- b. No person shall start the engine of an aircraft on the Airport if there is any gasoline or other volatile fluid on the ground within the vicinity of the aircraft.
- c. Combustion heaters on aircraft e.g., wing & tail surface heaters, integral cabin heaters, shall not be operated during fueling operations.

4.03 STATIC BONDING:

- a. Each hose, funnel, or apparatus used in fueling or de-fueling aircraft, including self-fueling, shall be maintained in good condition and be properly bonded.
- b. A conductive funnel shall be used to reduce the chance of spillage during fueling operations, when a hose with an approved nozzle is unavailable. When a funnel is used, it shall be kept in contact with the filler neck as well as the fueling nozzle spout during fueling operations.

4.04 LIABILITY:

- a. The fueling operator, tenant, or lessee shall be solely responsible for any violation incident to or in connection with fueling, storage facilities, equipment, operations, and training. The City assumes no liability or responsibility for violations of any applicable fueling requirements and procedures.
- b. The operator, tenant, or lessee shall reimburse the Airport for any fines, legal, or court costs, incurred by FBMA for such violations.

Section 5 – Motor Vehicles

5.01 GENERAL:

- a. All motor vehicles and their operators on the Airport shall comply fully with the State of Florida motor vehicle laws as amended, these R&R, and instructions issued by law enforcement personnel.
- b. Unless otherwise provided herein, the City shall have the authority to establish regulations regarding motor vehicle traffic and control on FBMA.
- c. The Airport Manager may tow, remove, or cause to be removed from the Airport any vehicle that is disabled, abandoned, and/or parked in violation of these R&R at the vehicle operator's risk and expense and without liability for damage that may result from such removal if the vehicle creates a safety hazard or interferes with Airport operations.
- d. Any person causing death or injury on the Airport or damage to Airport property as a result of a motor vehicle accident or incident shall report the accident or incident immediately to the Fernandina Beach Police Department as well as the Airport Manager. Such persons shall be responsible to the City for any damages to City property.
- e. Use of all-terrain vehicles, mini-bikes, go-carts, roller blades, roller skates, skateboards is not permitted on the Airport.
- f. Use of bicycles for transportation between buildings is permitted within hangar areas.

5.02 LICENSING AND INSURANCE:

- a. No person shall operate a motor vehicle or motorized ground equipment on the Airport without a valid operator's license appropriate for the vehicle being operated.
- b. All vehicles entering Airport property are required to have at least the minimum amount of insurance as required by State of Florida statutes.

5.03 VEHICLE OPERATIONS WITHIN AIRPORT OPERATIONS AREA:

- a. No person shall operate a motor vehicle of any kind on the Airport in a reckless manner, or in excess of the posted speed limit.
- b. Speed limits shall not exceed 10 mph on ramps, aprons, in aircraft parking or hangar areas, and other areas of the AOA unless posted.
- c. All motor vehicles on the Airport shall be operated on roadways or paved surfaces when traveling to/from/between aircraft parking areas, hangar areas, and tenant facilities.
- d. No motor vehicle shall be permitted on any portion of the AOA unless the Airport Manager has granted specific written permission to such vehicle's operator and such vehicle is utilized for, or in conjunction with, aeronautical activities.
- e. Pedestrians, aircraft, and emergency vehicles shall at all times have right of way over vehicular traffic.
- f. No person shall operate a motor vehicle in any hangar that is occupied by an aircraft on the Airport unless its exhaust is protected by screens and baffles pursuant to NFPA guidelines.
- g. No person shall park motorized ground equipment near any aircraft in such manner so as to prevent it or the other ground equipment from being readily driven or towed away from the aircraft in case of emergency.
- h. No vehicle used for hauling trash, dirt, or any other materials shall be operated on the Airport unless such vehicle is constructed so as to prevent the contents from dropping, sifting, leaking, or otherwise escaping there from.

5.04 VEHICLES CROSSING TAXIWAYS AND RUNWAYS:

- a. All motor vehicles operating on or across taxiways or runways shall have a functioning two-way radio (capable of communicating on UNICOM) and an operating yellow rotating flashing beacon, except when under escort by a motor vehicle properly authorized and equipped. During an emergency, blue/red flashing lights are acceptable for law enforcement and fire and rescue vehicles.
- b. The installation of two-way radio and/or flashing beacon shall not be construed as license to operate a motor vehicle on the taxiways or runways without prior written permission of the Airport Manager.
- c. Motor vehicles permitted to operate on the Airport will not proceed closer than 250 feet from the centerline of the runways nor across any of the runways prior to visually clearing for aircraft taking off or landing.
- d. When parking adjacent to a runway, all motor vehicles must park at least 250 feet to the outside of the runway lights. Exceptions include operational, agricultural, and maintenance equipment engaged in working on runways.
- e. Construction-related motor vehicles required to enter or work within the AOA, will be marked with an approved orange and white-checked flag for daytime operations or a yellow beacon for nighttime operations. Non two-way radio capable construction vehicles shall be escorted at all times while within the AOA by an Airport authorized vehicle or flagman equipped with two-way radio.

5.05 PARKING:

- a. Short-term (less than 24 hours) motor vehicle parking is available only in the unpaved vehicle parking lot on Airport Road. Long-term (more than 24 hours up to 30 days) parking may be permitted in the paved vehicle parking lot on Airport Road. Any ground vehicle improperly parked in the short term or long term public parking areas without written approval of the Airport Manager may be removed at the owner's expense.
- b. No person may park in such a manner to obstruct a parking lot lane, driveway, roadway, Airport access gate, walkway, crosswalk, fire lane, runway, taxiway, taxi lane, and/or obstruct access to hangars, parked aircraft, and/or parked vehicles or create a hazard nor in a manner, which could interfere with, or create a hazard for aircraft operations.

- c. No person shall use any public parking area to temporarily or permanently store any type of motor vehicle.
- d. Boats, jet skis, snowmobiles, dune buggies, any cars including race cars and antique cars, recreational vehicles, trailers, and like equipment may not be permanently parked or stored on FBMA, including within hangars, unless permitted by written agreement or with written permission of the Airport Manager.
- e. Attended vehicles shall be parked parallel to the t-hangar. One vehicle only may be parked inside a t-hangar when hangar is empty and aircraft is not on the Airport. Additional motor vehicles shall park in long-term parking or other designated areas.
- f. Bulk hangar tenants shall park their motor vehicles in designated areas at their hangar.

5.06 REPAIR OF VEHICLES:

No person shall clean or make any repairs to motor vehicles anywhere on the Airport; except as may be approved by the Airport Manager for minor repairs.

Section 6 – Conflict Resolution Process

6.01 VIOLATIONS:

The Airport Manager may issue verbal or written violation notices to any tenant or operator and agents or employees who, in his discretion, violates any part of these R&R.

6.02 APPEAL PROCESS:

- a. Anyone issued a written notice of violation who wishes to contest such issuance shall have ten (10) calendar days from such notice to provide a written statement to the Airport Manager explaining the occurrence and providing any other information or explanation concerning the alleged violation(s). The Airport Manager has ten (10) calendar days to respond to any request for review based upon information received from the alleged violator and, if applicable, may revise, amend, or rescind his original violation notice. However, should the Airport Manager, in his discretion, conclude that the alleged violation(s) poses a threat to the safety, health, and welfare of others, may temporarily revoke the violator's Airport privileges and/or temporarily suspend the Airport operations of the violator pending completion of such appeal.
- b. An alleged violator may file a written request of appeal to the City Manager within ten (10) calendar days of the Airport Manager's written decision. The City Manager, along with the City Attorney, and an appointee of the City Manager, who shall be a Department Director but not the Airport Manager, shall schedule a meeting to review and hear an appeal from the Airport Manager's decision. The Committee shall hear the appeal and have thirty (30) calendar days to issue a written opinion which shall be final and binding on the alleged violator.

DEFINITIONS

The terms below shall have the following definitions for purposes of these R&R. All other terms not defined below and related to aeronautical practices, processes, and equipment shall be construed according to their general usage in the aviation industry.

- **Aeronautical Activity** – Any activity that involves, makes possible, or is required for the operation of aircraft or that contributes to or is required for the safety of such operations. Activities within this definition, commonly conducted on airports, include, but are not limited to the following: general and corporate aviation, air taxi and charter operations, scheduled and nonscheduled air carrier operations, pilot training, aircraft rental and sightseeing, aerial photography, crop dusting, aerial advertising and surveying, aircraft sales and services, aircraft storage, sale of aviation petroleum products, repair and maintenance of aircraft, sale of aircraft parts, parachute or ultralight activities, and any other activities that, because of their direct relationship to the operation of aircraft, can appropriately be regarded as aeronautical activities.

- **Agency** – Any federal, state, or local government entity, unit, agency, organization, or authority.

- **Agreement (or Lease or Hangar Rental Agreement)** – A written contract between the City of Fernandina Beach and an entity or person to occupy, use, and/or develop land and/or improvements and engage in aeronautical activity. Such contract shall recite the terms and conditions under which the activity will be conducted at the Airport including, but not limited to, term of the agreement, rents, fees, and charges to be paid by the entity or person, and the rights and obligations of the respective parties.

- **Aircraft** – Any contrivance now known or hereafter invented, used, or designed for navigation of or flight in air. Examples of aircraft include, but are not limited to, airplane, glider, rotorcraft, helicopter or gyroplane, balloon, blimp, and ultralight.

- **Airport** – All land within the legal boundaries of Fernandina Beach Municipal Airport, owned by the City of Fernandina Beach.

- **Airport Manager** – The individual appointed and authorized by the City of Fernandina Beach to administer and manage all operations of the Airport and Airport facilities.

- **Airport Rules and Regulations** – Rules and Regulations of the Airport, properly adopted by Resolution of the City Commission of the City of Fernandina Beach, as may be amended from time to time.

- **Airport Tenant (Tenant)** – Any person or entity based on the property of the Airport possessing an approved lease or agreement with the City; any person or entity with a sublease agreement with an entity based on the Airport possessing a lease or agreement with the City.

- **AOA (Airport Operations Area)** – The area of the Airport situated within the perimeter fence line, which is used primarily for aircraft parking, taxiing, refueling, landing, takeoff, or surface maneuvering.

- **Apron (or Ramp)** – A defined area of an Airport intended to accommodate aircraft for the purposes of loading and unloading passengers or cargo, refueling, parking, or maintenance.

- **City** – The City of Fernandina Beach located in Nassau County, Florida

- **Commercial Aeronautical Activity** – An activity which involves, makes possible, or is required for the operation of aircraft, or which contributes to or is required for the safety of aircraft operations commonly conducted on the Airport and the purpose of such activity being to generate or secure earnings, income, compensation, services, goods, like-kind exchange, or profit of any kind, whether or not such results are accomplished.

- **Emergency Vehicle** – Vehicle of the police or fire department, ambulance or any vehicle conveying an Airport official or Airport employee in response to an official alarm call.

- **Entity** – A person, persons, firm, limited-liability company, corporation, partnership, unincorporated proprietorship, association, or group formed for the purpose of conducting the proposed activity.

Fernandina Beach Municipal Airport Rules and Regulations

- FAA (Federal Aviation Administration) – The federal agency within the Department of Transportation of the United States government that has the responsibility of promoting safety in the air, by both regulation and education.
- FAR (Federal Aviation Regulation) – The federal government rules and regulations governing aviation activity under Code of Federal Regulations – Title 14 Aeronautics and Space.
- Fire Department – Fernandina Beach Fire Department having jurisdiction and responsibility over the Airport.
- Fixed Base Operator (FBO) – A business granted the right by the Airport sponsor to operate on an Airport and provide aeronautical services such as fueling, hangar space, tie-down and parking, aircraft rental, aircraft maintenance, and flight instruction.
- Flammable Liquids – A liquid or agent which when in contact with another property or properties may ignite causing a flame.
- Fuel – Any petroleum product used for the purpose of providing propulsion to an aircraft.
- Fuel Handling – The transporting, delivering, dispensing, storage, or draining of fuel or fuel waste products to or from any aircraft, vehicle or equipment.
- Hazardous Materials – Any substance, waste or material which is toxic, explosive, corrosive, flammable, infectious, radioactive, carcinogenic, mutagenic, or otherwise hazardous, and is or becomes regulated as a hazardous material by any governmental authority, agency, department, commission, or board.
- Minimum Standards for Commercial Activities (Minimum Standards) – The qualifications, criteria, and standards established by the City of Fernandina Beach as the minimum requirements to be met as a condition for the right to conduct a commercial aeronautical activity on the Airport.
- Motor Vehicle (or Vehicle) – Any device that is capable of moving itself, or being moved, from place to place upon wheels, but does not include any device designed to be moved by muscular power or designed to move primarily through the air.
- NFPA (National Fire Protection Association) – All codes, standards, rules, and regulations contained in the standards of the National Fire Protection Association, as may be amended from time to time, and are incorporated herein by reference.
- Operator (Aircraft or Motor Vehicle) – Any person who is in actual physical control of an aircraft or motor vehicle.
- Operating Directive – Specific written documents detailing approved methods of operations as directed and signed by the Airport Manager. Such will become an addendum of the Airport Rules and Regulations.
- Owner – Any person who holds the legal title of an aircraft or a motor vehicle.
- Permission – A right or approval granted by the Airport Manager under authority delegated by City Manager and/or City Commission.
- Person – Any individual, firm, partnership, corporation, company, association, joint stock association, or body politic or any other group acting as an entity, or combination of thereof; and further includes any trustee, receiver, committee, assignee, or other representative or employee thereof.
- Police Department (or Law Enforcement) – Fernandina Beach Police Department having jurisdiction and responsibility over the Airport.
- Public Area (or Common Area) – The land and/or improvements at the Airport that is available for use on a non-exclusive basis and not controlled by any leasehold.
- Regulatory Measures – Federal, state, county, city, and Airport, laws, codes, ordinances, policies, rules and regulations, including, without limitation, those of the United States Department of Transportation, the FAA, the FDOT, NFPA, Airport Minimum Standards, Airport Rules and Regulations, all as may be in existence, hereafter enacted, and amended from time to time.
- Restricted Area – Any area of the Airport wherein entry or use thereof is restricted to authorized personnel only pursuant to regulatory measures, including but not limited to: runways, taxiways, fire lanes, Airport maintenance facilities, mechanical rooms, electrical vaults, fire breaks, and any of the areas marked as such with appropriate signage.

Fernandina Beach Municipal Airport Rules and Regulations

- Run-up – Aircraft engine operation above normal idle power for purposes other than initiating taxi or takeoff.
- Runway – A defined rectangular surface on an Airport prepared or suitable for the landing or taking off of aircraft. Runways are identified by a broken white centerline, solid white edge lines, and white edge lights.
- Self-fueling or self-service – Self-fueling means the fueling or servicing of an aircraft (i.e. changing the oil, washing) by the owner of the aircraft with his or her own employees and using his or her own equipment. Self-fueling or other self-services cannot be contracted out to another party. Self-fueling implies using fuel obtained by the aircraft owner from the source of his/her preference. As one of many self-service activities that can be conducted by the aircraft owner or operator by his or her own employees using his or her own equipment, self-fueling, differs from using a self-service fueling pump made available by the Airport, a FBO, or an aeronautical service provider. The use of a self-service fueling pump is a commercial activity and is not considered self-fueling as defined herein and can be subject to Minimum Standards. In addition to self-fueling, other self-service activities that can be performed by the aircraft owner with his or her own employees include activities such as maintaining, repairing, cleaning, and otherwise providing service to an aircraft, provided the service is performed by the aircraft owner or his/her employees with resources supplied by the aircraft owner. Title 14 CFR Part 43 permits the holder of a pilot certificate to perform specific types of preventative maintenance on any aircraft owned or operated by the pilot.
- Shall (or will or must) – These words are always mandatory.
- Taxi lane – The portion of the aircraft parking areas used for access between taxiways and aircraft parking positions.
- Taxiway – A defined path established for the taxiing of aircraft from one part of an Airport to another. Taxiways are identified by a solid painted yellow centerline and blue edge lights.
- Tie-down Area – An area paved or unpaved suitable for parking and mooring of aircraft wherein suitable tie-down points are located.
- UNICOM (CTAF) – A two-way communication system operated by a non-governmental entity on a designated radio frequency to provide Airport advisory information while operating to or from an Airport that does not have a control tower or an Airport when the tower is closed. The Common Traffic Advisory Frequency (CTAF) may be a UNICOM, MULTICOM, Flight Service Station (FSS), or a tower frequency and is identified in appropriate aeronautical publications. While not required for operation at Fernandina Beach Municipal Airport, use is strongly encouraged.

Section 1 – General

1.01 INTRODUCTION

The City of Fernandina Beach, as owner, operator, and sponsor of Fernandina Beach Municipal Airport (FBMA), being responsible for all aspects of the administration of this public, general aviation facility, and in order to foster and encourage the economic growth and orderly development of aviation and related aeronautical activities at FBMA has established certain requirements for commercial aeronautical entities to ensure that adequate aeronautical services and facilities are provided to the users of FBMA.

These Minimum Standards for Commercial Aeronautical Activities (Minimum Standards) are the threshold entry requirements for a person or persons, partnership, company, trust, corporation, or other business entity, based on FBMA and/or using FBMA, to engage in one or more commercial aeronautical service or activity to the public at FBMA. These Minimum Standards are to promote fair competition at FBMA, taking into consideration the aviation role of FBMA, facilities that currently exist at FBMA, services being offered at FBMA, and the future development planned for FBMA. The uniform application of these Minimum Standards, containing the minimum levels of service and facilities that must be offered by the service provider, relates primarily to the public interest and discourages substandard entrepreneurs, thereby protecting both established and future aeronautical activity as well as FBMA patrons. All commercial aeronautical operators are provided a level playing field on which they will hopefully prosper while providing excellent service to aviation customers. There is not any prohibition to exceed the minimum requirements in terms of quality of facilities and services provided.

The adoption of these Minimum Standards for Commercial Aeronautical Activities is recommended by the FAA to comply with federal law and regulations that prohibit the granting of exclusive rights to use an Airport that has received federal Airport Improvement Program (AIP) funding. The City of Fernandina Beach will comply with federal law and Federal Aviation Administration (FAA) Advisory Circulars which currently exist for MINIMUM STANDARDS FOR COMMERCIAL AERONAUTICAL ACTIVITIES, and EXCLUSIVE RIGHTS AT FEDERALLY-OBLIGATED AIRPORTS, and as those advisory circulars may be amended by the FAA from time to time.

These Minimum Standards are not intended to be all-inclusive, as the operator of a commercial aeronautical venture who is based on or uses FBMA will be subject to additional applicable federal, state and local laws, codes and ordinances and other applicable regulatory measures, including the Airport Rules and Regulations pertaining to all such activities.

1.02 PURPOSE

- Provide a minimum level of services that are offered to the public in connection with the conduct of particular aeronautical activities or services on FBMA
- Provide for the safe conduct of all commercial aeronautical activities at FBMA
- Protect airport users from unlicensed and unauthorized products and services
- Maintain and enhance the availability of adequate services for all airport users
- Provide that no entity receives a competitive advantage through less-than-fair and uniform market value use of City facilities
- Promote the economic health of FBMA businesses
- Promote the orderly improvement and development of FBMA

1.03 EXCLUSIVE RIGHTS

In accordance with FBMA assurances given to the federal or state government by the City as a condition to receiving federal or state funds, the granting of rights or privileges to engage in commercial aeronautical activities shall not be construed in any manner as affording any person or entity any exclusive right, other than the exclusive use of the land and/or improvements which are specifically set forth in a written lease, permit, or agreement.

1.04 STATEMENT OF POLICY

A fair and reasonable opportunity, without unjust discrimination, shall be accorded to all applicants to qualify and present ideas for doing business, using FBMA facilities and furnishings, which the City, deems are available for selected aeronautical activity or service. Proposals meeting the Minimum Standards as established by the City and set forth herein for commercial aeronautical activities at FBMA shall be presented to the City Commission for approval. Commercial aeronautical activities may be proposed that do not fall within the categories designated herein. In any such cases, appropriate Minimum Standards shall be developed on a case-by-case basis for such activities and, if accepted and approved by the City, incorporated into the entity's written agreement with the City and into these Minimum Standards by amendment. The City in its sole discretion may distribute a Letter of Interest (LOI) or a Request for Proposal (RFP) for the leasing/use of available FBMA facilities.

A written agreement, lease, or permit, properly executed by the City and a based or local area commercial aeronautical operator is a prerequisite to commencement of FBMA facility and airfield use by any commercial aeronautical activity. Contingent upon its qualifications, its meeting the established Minimum Standards with the City and the payment of the prescribed rentals, fees, and charges, commercial aeronautical operators shall have the right and privilege to engage in and conduct the activity or activities specified by written agreement with the City. All agreement provisions, however, must be compatible with the Minimum Standards herein contained and will not change or modify the standards and requirements themselves. In all cases where the words "standards" or "requirements" appear, it shall be understood that they are modified by the word "minimum." Any required determinations, interpretations, or judgments regarding what constitutes an acceptable minimum standard, or regarding compliance with such standard, shall be made by the City.

The City reserves and retains the right for the use of FBMA by others who may desire to use it, pursuant to applicable federal, state, and local laws, ordinances, codes, standards, and other regulatory measures pertaining to such use. The City further reserves the right to designate specific FBMA areas in which the individual or a combination of aeronautical services may be conducted. Such designation shall give consideration to the nature and extent of the operation and the lands and improvements available for such purpose, consistent with the orderly and safe operation of FBMA.

These Minimum Standards may be included in whole, in part, or by reference as part of all leases, and other agreements between the City and any entity desiring to be based on and/or use FBMA and engage in any commercial aeronautical activities. The rates, fees, and charges applicable to the providers of commercial aeronautical activities are established by the City to make FBMA as financially self-sustaining as possible and be sufficient to cover FBMA costs.

These Minimum Standards are not retroactive and do not alter any existing written agreement properly executed prior to the date of approval of these Minimum Standards and as may be amended that does not provide for application of future revisions of the Minimum Standards, in which case these Minimum Standards shall be effective consistent with such written agreement. In any event, upon expiration of an existing lease, agreement, or permit with the City or if the commercial aeronautical operator desires to materially increase or expand its activities, the commercial aeronautical operator shall then comply with the provisions of these Minimum Standards. Conversely, these Minimum Standards shall not be deemed to modify any existing agreement under which an entity is required to exceed these Minimum Standards, nor shall they prohibit the City from entering into or enforcing an agreement that

requires an entity to exceed the Minimum Standards. In the event of any conflict between the terms of these Minimum Standards and the provisions of any lease or agreement, the terms of the lease or agreement shall be controlling.

These Minimum Standards may be supplemented and amended by the City from time to time and in such manner and to such extent as is deemed appropriate by the City. Minimum Standards shall be reviewed and updated at minimum every five years or as needed to be amended.

The City reserves the right to lease an existing facility or any portion of an existing facility to a Specialized Aviation Service Operation (SASO) in order to maximize facility use and business opportunities. A lease of this nature shall be at the City's sole discretion, and shall be considered to meet any minimum facility requirements as defined in these Minimum Standards.

The City further reserves the right to designate from time to time the specific areas where individual aeronautical services or a combination of aeronautical services may be conducted, and to determine whether or not there is sufficient, appropriate, or adequate space at the proposed site to meet the minimum requirements established herein. Such determination shall consider the nature and extent of the proposed operation and the sites available for such purpose, consistent with the current Airport Master Plan and the orderly, safe, and efficient operation and development of FBMA.

1.05 WAIVER OF MINIMUM STANDARDS

No commercial aeronautical operator will be allowed to operate or provide services not in compliance with these Minimum Standards unless unusual circumstances exist which may give cause for consideration of a temporary waiver. The City may, at its sole discretion, waive or modify any portion of the Minimum Standards for any person or entity when it is determined that such waiver is in best interest of the public and will not result in unjust discrimination against other commercial aeronautical operators at FBMA. Any initial waiver will not exceed 12 months. However any waiver may be reviewed annually and extended in sole discretion of City.

1.06 GENERAL REQUIREMENTS FOR COMMERCIAL AERONAUTICAL OPERATORS

The following shall apply to all commercial aeronautical activity or service provider, either a FBO or SASO, at FBMA:

1. Unless otherwise provided by the City, all activities of the commercial aeronautical entity shall be conducted on an area or areas of sufficient size to accommodate all services that the commercial aeronautical operator is approved to perform, allowing for future growth and additional services as contemplated by the City or the commercial aeronautical operator at the time of application, but as limited by the space available on FBMA.
2. Shall conduct its business operations strictly within the areas assigned to it by the City, and its operations shall not in any way interfere with the operations of other commercial aeronautical entities, agencies, or other businesses operating on FBMA, the use of FBMA by the general public, or with any common use areas.
3. Shall provide their services or activities on a fair, equal, and not unjustly discriminatory basis to all users thereof, and they will charge fair, reasonable, and not unjustly discriminatory prices for each unit or services provided. Lessee may be allowed to make reasonable and non-discriminatory discounts, rebates, and other similar types of discounts to volume purchasers or users of the service provided. Further, any commercial aeronautical entity will insure that any sub-lessee or subcontractor comply with the provisions of this paragraph.
4. Personnel shall meet all federal, state, and local training and certification requirements applicable to their individual duties and company services.

Fernandina Beach Municipal Airport Minimum Standards

5. Shall control the conduct and demeanor of its personnel and subtenants, as well as to conduct its business operations in a safe, orderly, efficient, and proper manner so as not to unreasonably disturb, endanger, or offend any customers, tenants, or competitive operators.
6. Shall employ the necessary quantity of trained staff, on-duty management, and supervisors to provide for the efficient, safe, and orderly compliance with its lease, agreement, sublease, or permit.
7. No right or privilege will be granted to any commercial aeronautical entity which would prevent any entity operating aircraft at FBMA from performing any services on its own aircraft with its own direct employees (W-2), including but not limited to maintenance and repair, that it may choose to perform.
8. The City reserves the right to further develop or improve FBMA as it sees fit, regardless of the desires or views of the commercial aeronautical operator, and without interference or hindrance. FBMA shall make every effort to minimize the disruption of normal airport usage during periods of repair or further airport development.
9. Airport access and security shall be maintained at all times in accordance with standards as may be established and required by the City.
10. Any fine or penalty imposed on the City by the FAA or other governmental body, resulting from lessee's or permittee's use, operations, and occupancy of the leased premises, will be payable by lessee or permittee.
11. Shall keep current and provide the Airport Manager with applicable point-of-contact(s) and phone numbers for emergency purposes.
12. Shall permit its personnel who drive motor vehicles on FBMA to do so only in accordance with the Airport Rules and Regulations, applicable federal, state, and local laws, ordinances, codes, or other similar regulations now in existence or as may be hereafter modified, amended, or enacted.
13. Shall keep and maintain its leased premises and all improvements in a neat and orderly condition at all times, and in good and substantial repair, condition, and appearance. Shall keep mowed and in a pleasing condition all landscaping and grass areas within its leased premises.
14. Shall commit no unlawful nuisance, waste, or injury on the leased premises and will refrain from doing anything which may result in the creation, commission, or maintenance of such nuisance, waste, or damage to property on FBMA.
15. Shall refrain from creating or allowing on its premises any obnoxious odors or smokes, or noxious gases or vapors. The creation of exhaust fumes by the operation of internal combustion engines or aircraft engines of other types, so long as such engines are maintained and are being operated in a proper manner, is not a violation of this paragraph, nor shall the reasonable operation of the commercial aeronautical operator's business constitute such violation, although some odors, gases, and vapors may result therefrom.
16. Shall refrain from doing anything which might interfere with the effectiveness or accessibility of FBMA's public utilities systems, drainage or sewer system, storm water management system, fire protection system, sprinkler system, alarm system, or fire hydrants and hoses, if any are installed or located on or in their leased premises.
17. Shall remove or dispose of debris and other waste material, whether solid or liquid, arising from the commercial aeronautical operator's activities. Any garbage, debris, or waste, which may be temporarily stored in the open, shall be kept in suitable metal garbage or waste receptacles equipped with tight-fitting covers of a design sufficient to contain whatever may be placed therein. Shall use extreme care when removing all such waste. Any hazardous waste generation, storage, or disposal shall comply with all applicable federal, state, and local regulations.
18. No fuels, oils, greases, detergents, or other insoluble substances shall be placed in the sewage or drainage systems or on the ground. Any FBO or SASO, at its sole cost and expense, shall comply with all requests made by the U.S. Environmental Protection Agency (EPA) or other competent governmental authority including, but not limited, to the installation of a grease

and oil trap designed to catch all oils, greases, detergents, and other insoluble substances used in the maintenance and washing of equipment and/or aircraft. The installation of any required equipment or structure shall conform to recommended specifications of the EPA or Florida Department of Environmental Protection (FDEP) as applicable.

19. Shall at no time conduct any aeronautical activity on leased property from a structure that would be considered temporary or mobile under Florida Building Codes and applicable City Ordinances without specific approval from the City.
20. Shall maintain all aprons, ramps, taxiways, roadways, and parking lots that are constructed by the FBO or SASO or reserved for their exclusive use.
21. Shall refrain from doing any act or thing upon the FBMA which will invalidate or conflict with any fire, property, or liability insurance policies covering FBMA.
22. Shall provide an adequate supply of properly located, type, size and operable fire extinguishers and other safety equipment in accordance with the National Fire Prevention Association (NFPA) requirements.

1.07 SUB-LESSEE OR SUBCONTRACTOR REQUIREMENTS

If a commercial aeronautical operator leaseholder desires to sublease space to another person or entity or contracts with an aeronautical operator to provide one or more specialized aviation services, the following conditions shall apply:

1. Lessee must obtain written approval of sublease or subcontractor agreement from the City before allowing sub-lessee or subcontractor to occupy or conduct any form of business from the lessee's leasehold. Said sublease or subcontract shall define the type of business and service to be offered by sub-lessee or subcontractor.
2. Sub-lessee or subcontractor shall also enter into an agreement with the City. Such agreement shall be appropriate to the particular type of services to be provided by sub-lessee or subcontractor. The agreement or permit shall provide for payment by sub-lessee or subcontractor to FBMA of fees pertinent to the types of services offered by sub-lessee or subcontractor unless prohibited by written agreement.
3. Lessee must have the facilities and physical space necessary to support the aeronautical services of his sub-lessee(s) or subcontractor(s). Such facilities and space shall be sufficient to accommodate the lessee's aeronautical service as well as those requirements for any sub-lessee or subcontractor according to these Minimum Standards.
4. The sub-lessee or subcontractor must meet all of the Minimum Standards established by the City for the category or categories of services to be furnished. The Minimum Standards may be met in combination by lessee and sub-lessee or subcontractor. Any sublease or subcontract agreement shall specifically define those services provided by lessee to sub-lessee or subcontractor that must be used to meet the Minimum Standards.
5. Sub-lessee or subcontractor shall provide evidence of minimum insurance coverage as determined by the City for the categories of service to be offered as noted in Section 1.08 and Appendix B. Additionally any sub-lessee or subcontractor shall carry premise insurance.

1.08 INSURANCE REQUIREMENTS FOR COMMERCIAL AERONAUTICAL OPERATORS

Insurance amounts as detailed in Appendix B provide a minimum guideline and may not meet the requirements for every commercial aeronautical entity. Each commercial aeronautical entity should make its own analysis to determine if more is needed. Insurance coverage shall be obtained and paid for by the commercial aeronautical operator as required in the coverage and amounts specified by the City. Commercial aeronautical operators shall demonstrate to the City's satisfaction evidence of its ability to acquire insurance coverage as stipulated for each particular type of operation. Each policy shall name the City of Fernandina Beach as additional insured. All insurance required shall apply as primary and not in excess of or contributing with other insurance which the commercial aeronautical entity may carry. A Certificate of Insurance or a copy of the insurance policies shall be furnished to the City with each annual

renewal and shall provide 30 days advance written notice of any change in coverage to any policy or cancellation of any policy. The City will provide 90 days advance notice of any changes to the minimum insurance coverage requirement. The types of insurance as noted in Appendix B may be added to or deleted from as determined by the City in its sole discretion.

A commercial aeronautical operator leaseholder shall be required to carry public liability insurance for any sub-lessee or subcontractor or provide a certificate of insurance which shows the entity and the City as named insured, in amounts commensurate with sub-lessee's or subcontractor's individual activities and services, as determined by the City.

Section 2 – Lease Requirements for Commercial Aeronautical Operators

2.01 BUSINESS PLANNING

The Airport Manager is the first person of contact to discuss providing or increasing a commercial aeronautical opportunity at FBMA. At this meeting any prospective commercial aeronautical operator can secure the necessary documents needed to complete the process to become a FBO or SASO at FBMA. Documents available include:

1. Minimum Standards for Commercial Aeronautical Activities
2. Airport Leasing Policy
3. Application for Ground or Facility Lease or Airport Operating Permit
4. Airport Ground Leasehold Development Process
5. Airport Architecture and Building Design Standards
6. Airport Rates and Charges
7. Sample Ground or Facility Lease
8. Airport Rules and Regulations

2.02 QUALIFICATION AND REQUIREMENTS

Any person desiring to conduct a commercial aeronautical activity on FBMA must complete a written application for an Airport Ground or Facility Lease or Airport Operating Permit and submit it to the Airport Manager detailing what aeronautical service or services are to be provided. No processing or approval action is possible until this application is submitted. Such application from any prospective commercial aeronautical operator assists in the City's determination that the applicant is technically and financially able to perform the services proposed. A person or entity shall have such business background and shall demonstrate the business capability to successfully provide the contemplated commercial aeronautical activity as to meet the City's approval. The information presented shall include financial documentation (annual balance sheets and related) to demonstrate the entity's financial capability to initiate operations and/or to construct improvements that may be required to support the proposed operation, or operations, and also indicate the commercial aeronautical operator's ability to operate the contemplated operations, once initiated. In each instance, the City shall be the final judge as to the qualifications and financial ability of the entity. A business plan may be required of entities desiring to operate on FBMA. The City also may request any such additional information as may reasonably be required to evaluate the proposal. Additionally any entity seeking to conduct commercial aeronautical activity at FBMA as a FBO shall demonstrate that it has adequate resources to realize the business objectives agreed to by the City and the entity.

Those commercial aeronautical entities not leasing or subleasing property on FBMA, such as an independent aeronautical operator or an independent service provider, also need to provide appropriate documentation as part of the application process for their proposed operation to secure an Airport Operating Permit. Such independent commercial aeronautical operators shall meet and maintain

compliance with the applicable Minimum Standards for their commercial activity. The City retains the right to restrict or deny such FBMA access if FBMA safety or efficiency is compromised by the existence of the proposed commercial service or activity. Further the City has the right to prohibit use or continued use of FBMA should a lease holding entity offer same or similar services on FBMA. Once an Airport Operating Permit is approved then each year such independent commercial aeronautical operators shall secure an annual renewal of the permit to include providing applicable operational certificates, providing evidence of insurance, and paying any applicable fees.

2.03 APPLICATION TO PROVIDE ON AIRPORT SERVICES

Demonstration of intent to conduct a business operation at FBMA shall be by application to the Airport Manager. The following at minimum must be provided:

1. The legal name of the entity submitting this application and its business name (if different).
2. The address and telephone number of the entity and primary contact person.
3. The names, addresses, phone numbers, and short resume of all owners of five (5) per cent or more equity interest, management control, or debt in the entity.
4. A comprehensive listing of all activities proposed to be offered, along with copies of all applicable federal, state, or local operating certificates and licenses held.
5. Evidence of past experience and technical ability to perform and/or develop the proposed services and facilities.
6. Amount of land to lease.
Building space to lease or facilities to construct.
Will there be any subleasing of building space.
7. The estimated cost of any structure or facilities to be constructed or furnished, proposed specifications, and the means and method of financing such construction.
8. The dates for commencement and completion of proposed development or the proposed date for commencement of the intended activities and proposed term for conducting same.
9. The equipment, any special tooling required, vehicles, and inventory proposed to be utilized in connection with the intended activities.
10. Will there be any hazardous materials located on site. If yes describe.
11. The number of persons to be employed, including the names and qualifications of each management/supervisory person, and specifications as to whether the employees will be full-time, part-time, or seasonal.
12. Periods (days and hours) of proposed operation:
13. The number of aircraft to be utilized in connection with the proposed activities and the make, model, passenger seating capacity, cargo capacity, aircraft registration number, and copies of applicable operating certificates for each aircraft.
14. Amounts and types of insurance coverage to be maintained (no less than required under Minimum Standards).
15. For proposed agreements for lease of unimproved or improved Airport areas, a layout (to scale) of the size, configuration, and location of the property proposed for occupancy and a preliminary drawing(s) of the building(s) and improvements to be constructed, together with the identification of vehicle parking areas (See Ground Leasehold Development Process).
16. For proposed agreements to lease existing structures or improvements, a description of the size, location, and proposed utilization of office, hangar, tie-downs, and vehicle parking areas to be utilized (See Ground Leasehold Development Process).
17. Evidence of a written business plan to include:
 - a. Business projections for the first year by quarter and the succeeding 4 years annualized.
 - b. A current balance sheet and previous fiscal year's balance sheet.
 - c. Methods to be used to attract new business (advertising and incentives).
 - d. Amenities to be provided to attract business.
 - e. Plans for physical expansion, if business should warrant such expansion.
18. Contact information of three references (name, title, company, telephone).

19. Contact information of three credit references (name, title, company, telephone).

2.04 ACTION ON APPLICATION FOR COMMERCIAL AERONAUTICAL OPERATORS

With a properly submitted application to the Airport Manager, an agreement or lease will then be developed between the entity and the City. Both documents are also presented to the Airport Advisory Commission for its review. The Airport Advisory Commission will develop a recommendation and forward to the City Commission for its final action. This process can take 120 days from the receipt of application.

Applications may be denied for one or more of the following reasons:

1. The applicant, for any reason, does not meet qualifications, standards, and requirements established by these Minimum Standards.
2. The proposed operation or construction will create a safety hazard on FBMA.
3. The granting of the application will require the expenditure of local funds, labor, or materials on the facilities described in or related to the application, or the operation will result in a financial loss or hardship to FBMA.
4. There is no appropriate or adequate available space or building on FBMA to accommodate the proposed activity at the time of application.
5. The proposed operation, FBMA development, or construction does not comply or is inconsistent with the Land Development Code, approved Airport Layout Plan, or conflicts with federal, state, or local rules and regulations.
6. The development or use of the land area requested will result in aircraft or building congestion or will unduly interfere with the operation of any present commercial aeronautical operator on FBMA or restrict aircraft access to any commercial aeronautical operator's area.
7. Any party applying, or interested in the business, has supplied false information, or has misrepresented any material fact in the application or in supporting documents, or has failed to make full disclosure on the application.
8. Any party applying, or having an interest in the business, has a record of violating the FBMA Airport Rules and Regulations, the rules and regulations of any other airport, Florida Department of Aviation (FDOT) aviation regulations, or Federal Aviation Regulations.
9. Any party applying, or having an interest in the business, has defaulted in the performance of any lease or other agreement with the City or any lease or other agreement at any other airport.
10. On the basis of current financial information, the entity does not, in the opinion of the City, exhibit adequate financial responsibility to undertake the proposed services.
11. Any party applying, or having an interest in the business, is not sufficiently credit worthy and responsible in the judgment of the City to provide and maintain the business to which the application relates and to promptly pay amounts required under the lease.
12. The applicant cannot provide a performance bond or other adequate security in an amount required by the City to ensure performance of its obligations under its proposed lease or permit or ensure completion of any associated construction.
13. The applicant has committed any crime, or violated any local ordinance, rule, or regulation, which adversely reflects on its ability to conduct the FBO or SASO operation applied for.

2.05 SITE DEVELOPMENT AND CONSTRUCTION STANDARDS

Once the City Commission has approved the agreement, both parties sign the lease or agreement and rent becomes applicable. In the meantime, with a supporting recommendation from the Airport Advisory Commission, it is usual for a commercial aeronautical operator, if desired, to begin the site development and permitting process. The commercial aeronautical operator shall obtain at its sole expense all licenses and permits necessary for the conduct of the commercial aeronautical operator's activities at FBMA as required by the City or any other duly authorized governmental agency. However,

no construction of any kind shall be commenced at FBMA without final approval from the City, FAA, or any other agency that may have jurisdiction. Any proposed construction or modification of facilities by a commercial aeronautical operator will be subject to the development regulations described in the Airport Ground Leasehold Development Process, the Airport Architecture and Building Design Standards, applicable federal, state, local laws and regulations, Florida Building Codes, applicable City Building Ordinances, NFPA requirements, and conformity with the Airport Master Plan. The City must approve the plans and specifications prior to construction, and also approve the filing by the prospective commercial aeronautical operator of a notice of proposed construction required by FAR Part 77, "Objects Affecting Navigable Airspace," to the FAA (Form 7460-1).

Land that is designated for aeronautical purposes must be developed and used for aeronautical activities only. Non-aviation related activities shall not be allowed in buildings or hangars located on land designated for aeronautical purposes without FAA approval. However the City may, at its option, grant an exemption to permit in conjunction with an aeronautical use a limited non-aeronautical use of the land and facility usually not to exceed 30%. No commercial aviation operator shall be allowed to operate in, from, or around a City owned t-hangar or bulk row storage hangar.

All improvements constructed on FBMA, other than trade fixtures, shall become a part of the land and belong to the City upon expiration, termination, or cancellation of the lease agreement between the commercial aeronautical operator and the City covering such improvements. If the commercial aeronautical operator chooses to develop a site which is not currently served by taxiways, roadways, and/or utility services, the commercial aeronautical operator shall be responsible for extending such services and pavement surfaces to its site at the commercial aeronautical operator's sole expense, unless otherwise negotiated with the City. All such utility services and pavement areas shall be constructed in full compliance with FBMA and FAA standards, as well as applicable City codes.

Section 3 – Fixed Base Operator (FBO)

3.01 GENERAL

A Fixed Base Operator is an entity that provides multiple aeronautical services including aircraft fueling to aircraft owners, airport users, and airport tenants. Only a FBO shall be permitted to sell aviation fuel, lubricants, and other related services to both transit aircraft operations and operations of aircraft based at FBMA.

3.02 FBO MINIMUM SERVICE LEVEL

1. Aircraft Fueling and Oil Services
2. Aircraft Line Services
3. Aircraft Crew and Passenger Customer Services
4. The following optional services are encouraged, but not required:
 - a. Aircraft Maintenance and Repair
 - b. Aircraft Bulk Hangar Storage
 - c. Flight Training
 - d. Aircraft Rental/Lease

A FBO may subcontract or use third party operators to provide any of the required FBO services or optional services above, with the exception of Items 1 through 3. For these services, a FBO may be permitted to enter into an agreement with a professional aviation services management company, experienced in managing/operating FBO's, to provide day-to-day management and/or staffing. Such management agreement must be approved by the City. The FBO shall remain the responsible party to the City for all decisions related to safety, security, and overall operational issues. A FBO's subcontractors

and third-party operators shall meet or exceed all Minimum Standards applicable for such services performed and must operate from the FBO premise. See Section 1.07 regarding subleases.

3.03 FBO MINIMUM SERVICE STANDARDS

1. Operation
 - a. Shall have premises open and services available every day of the year, except Christmas Day, from 0800-2000.
 - b. Shall be staffed with a minimum of two properly trained and uniformed personnel during normal business hours.
 - c. Shall be available to provide services outside of normal business hours, if requested in advance, or in response to unscheduled required services.
 - d. Shall be able to assist in the removal of disabled aircraft from FBMA's runway and taxiway system in a timely manner.
2. Aircraft Fueling and Oil Services
 - a. Shall provide the sale and into-plane delivery at a minimum 100LL-octane Aviation Gas (Avgas) and Jet A aviation fuels, accepted grades of aviation engine oils and lubricants, and other aviation petroleum products for aircraft that regularly operate at FBMA.
 - b. Shall deliver fuel to aircraft utilizing at least one Jet A refueling vehicle with a capacity of 2,000 gallons and one Avgas refueling vehicle with a capacity of 500 gallons.
 - c. Shall demonstrate satisfactory arrangements to purchase fuel, oil, and aviation lubricants in such quantities as is necessary to meet expected demand.
 - d. Shall provide properly trained personnel in the safe and proper handling, dispensing, and storage of aircraft fuel using equipment provided by the FBO.
 - e. Shall operate a fixed fuel storage facility which shall contain safety fixtures and filtration systems to ensure aircraft fuel quality in accordance with all Environment Protection Agency (EPA) regulations including proper fuel spill prevention features and containment capabilities. In addition, shall provide an approved fuel Spill Prevention Countermeasure and Control (SPCC) Plan to the Airport Manager or be properly coordinated into the Airport's SPCC Plan.
 - f. In addition to into-plane delivery may provide self-fueling facility for public use and such equipment must be in compliance with applicable state and local regulations and standards, and comply with fueling equipment requirements listed in this section.
 - g. Shall comply with all applicable local, state, and federal environmental statutes and regulations regarding storage tanks, disposal of waste oil and other potentially hazardous substances, and for the refueling of all aircraft and vehicles.
 - h. All equipment used for the storage, handling, and/or dispensing of petroleum products must meet all applicable federal, state, and local safety and fire codes, regulations and standards, NFPA requirements for aircraft fueling operations, and the appropriate FAA Advisory Circular.
 - i. All dispensing equipment shall be equipped with reliable metering devices subject to an independent inspection of the Motor Fuels Section of the Florida Department of Transportation and must be capable of servicing, in an efficient and safe manner, all types of aircraft. All metering devices must be inspected, checked and certified annually by appropriate local and state agencies. A copy of each such inspection must be provided to the Airport Manager.
 - j. All fueling services and systems shall be subject to routine inspection for fire and other hazards by the City, the FAA, and the appropriate state and local fire agencies.
 - k. Quality control of the fuel is the responsibility of the FBO.
 - l. Complete dated records shall be kept with regard to all maintenance activities conducted on fueling equipment and mobile refueling vehicles.
 - m. Shall maintain current fuel reports on file and available for auditing at any time by the City, the FDOT, or the FAA or other applicable agencies.
3. Aircraft Line Services

Fernandina Beach Municipal Airport Minimum Standards

- a. Shall provide ramp assistance including the parking, tie-down, ground handling, and storage of aircraft including ropes or other types of restraining devices and wheel chocks for aircraft based or normally transiting FBMA.
 - b. Shall provide adequate loading/unloading and towing equipment to safely and efficiently move aircraft to include aircraft tug(s) that can accommodate aircraft based or normally transiting FBMA.
 - c. Shall provide proper equipment as may be required to service and support aircraft based or normally transiting FBMA such as inflating aircraft tires, changing engine oil, washing aircraft windscreens, recharging aircraft batteries, and starting engines and performing minor repairs not requiring a certified mechanic. Shall have ground power starting capability.
 - d. Keep the ramp well maintained, clean, and free of foreign object debris (FOD).
4. Aircraft Crew and Passenger Customer Services
- a. Shall provide a flight planning area with appropriate communication facilities for complete flight planning including weather communication links separate from other public areas.
 - b. Shall provide a minimum of one courtesy vehicle available for customer use.
 - c. Shall provide appropriate concierge services and/or referral services as may be required to pilots and users and maintain local ground transportation contacts.
 - d. Shall have available basic pilot supplies.
5. Optional Services
- a. Shall meet Minimum Standards for like category of SASO as to equipment and services.

3.04 LAND AND IMPROVEMENTS REQUIREMENTS

1. Shall lease land area at a minimum of four acres (174,240 square feet) to provide for all buildings, aircraft parking, paved ramped area, and on-site customer and employee parking. Parking requirements will be in accordance with City code.
2. Shall lease or construct on the leased premises a public use operations building(s) and related improvements not less than 3,200 total square feet to sufficiently accommodate all activities and operations proposed, as approved by the City. The facility shall be properly lighted, air-conditioned, and heated to include office space, floor space for lobby or public waiting area, pilot's lounge separate from public waiting area, classroom/training room and/or conference room, storage, and public restrooms. Also provide snack food and beverage machines and public use telephone.
3. If optional services for aircraft maintenance and repair and/or aircraft bulk hangar storage is offered then shall lease or construct a hangar facility not less than 4,800 square feet with properly lighted space to perform maintenance work, aircraft storage, parts storage.
4. Any facility(ies) provided shall meet FBMA Architectural and Building Design Standards, NFPA requirements, Florida Building Codes, and all applicable City Building Ordinances.
5. Shall provide sufficient ramp area to support all activities of the FBO and all approved subtenants.
6. Shall lease or construct a separate, above ground or approved underground, aircraft fuel storage facility in a designated area with a minimum 10,000 gallons 100LL/Avgas and 10,000 gallons Jet A. Such facility may offer self-serve capability for either or both fuel products sold. Such facility and all improvements shall, at the FBO own expense, be maintained in a presentable condition consistent with good business practices and in accordance with the appropriate rules and regulations at the time of construction and any mandated changes.

3.05 INSURANCE

See Section 1.08 and Appendix B for insurance coverage requirements for a FBO operation on FBMA.

Section 4 – Specialized Aviation Service Operation (SASO)

4.01 GENERAL

A Specialized Aviation Service Operation (SASO) is a person or entity that provides a single or limited number of commercial aeronautical services and activities, and shall comply with the Minimum Standards for the specific service or activity described in this section. A SASO may not sell fuel.

Whenever a SASO conducts multiple activities pursuant to one lease, permit, or agreement with the City, and the Minimum Standards for one of the commercial aeronautical operator's activities are inconsistent with the Minimum Standards for another of the commercial aeronautical operator's activities, then the Minimum Standards which are more stringent, and/or more protective of the public's health, safety, and welfare, shall apply. When one or more activity is conducted, the minimum requirements may vary depending on the nature of each activity or combination of activities, but shall not necessarily be cumulative but will be required to obtain insurance for all exposures.

Nothing contained herein shall convey or imply an exclusive right of operation by any such commercial aeronautical entity. The City reserves the right to consider any and all other type services and activities not otherwise described herein as a SASO.

A SASO may sublet from a FBO or another SASO with approval of the City and payment of appropriate fees for the privilege to operate a commercial entity on FBMA. See Section 1.07 regarding subleasing.

4.02 SASO – AIRCRAFT MAINTENANCE AND REPAIR SERVICES (Airframe, Power Plant, Propeller, Radios, Instruments, and Accessories)

An aircraft maintenance and repair services SASO engages in a business capable of providing a service, or combination of services which otherwise may require FAA certification for the repair of aircraft airframe (major and minor), power plant, propellers, radios, instruments, and accessories for general aviation aircraft. This category shall also include the nonexclusive sale of aircraft parts and accessories. A SASO in this category may provide full service maintenance and repair services, individual services, or a combination of services. Usually this type of repair is performed on the aircraft, although it may also include bench repair of items removed from an aircraft that are intended for replacement on that aircraft.

Minimum Standards:

1. Shall lease sufficient land area, as approved by the City, to provide for all buildings, aircraft parking, paved ramped area, and on-site customer and employee parking to accommodate activities and operations proposed. Parking requirements will be in accordance with City code.
2. Such facility shall meet FBMA Architectural and Building Design Standards, NFPA requirements, Florida Building Codes, and all applicable City Building Ordinances including properly sized paved aircraft apron. Apron shall have tie down capability for all non-hangared aircraft capable of being tied down.
3. The facility shall include properly lighted, air conditioned, and heated office space, storage, and restroom area. Also provide telephone availability.
4. Any shop area and/or equipment and parts storage area provided shall be properly ventilated.
5. Shall possess and maintain all licenses and/or certificates as may be required by the FAA, Federal Communications Commission (FCC), or other appropriate agency which are applicable to the operation or services contemplated.

6. Shall employ and have on duty during operating hours trained personnel in such numbers as may be required to meet these Minimum Standards in a safe and efficient manner, but never less than one person currently certificated by the FAA with ratings appropriate to the work being performed and who holds a mechanic certificate or an inspection authorization.
7. Shall maintain appropriate hours of operation sufficient to meet public demand or provide a point of contact telephone communication capability for the public desiring the SASO services.
8. At the SASO discretion, but strongly encouraged, provide on-call emergency service capability.
9. Shall conduct all maintenance operations in accordance with applicable Airport Rules and Regulations, National Fire Protection Association requirements, and other applicable safety regulations.
10. See Section 1.08 and Appendix B for insurance coverage requirements for this commercial aeronautical activity on FBMA.

4.03 SASO – AIRCRAFT COMPONENT AND SUPPORT SERVICES (ancillary aircraft ground services such as aircraft stripping/painting, aircraft salvage, refurbishing, upholstery)

An aircraft component and support services SASO engages in the business of aircraft support services such as aircraft painting, aircraft salvage, refurbishing, upholstery, and similar aircraft components and support services. This category of commercial aeronautical operator also includes the nonexclusive sale of new and/or used components described above.

Minimum Standards:

1. Shall lease sufficient land area, as approved by the City, to provide for all buildings, aircraft parking, paved ramped area, and on-site customer and employee parking to accommodate activities and operations proposed. Parking requirements will be in accordance with City code.
2. Such facility shall meet FBMA Architectural and Building Design Standards, NFPA requirements, Florida Building Codes, and all applicable City Building Ordinances including properly sized paved aircraft apron. Apron shall have tie down capability for all non-hangared aircraft capable of being tied down.
3. The facility shall include properly lighted, air-conditioned, and heated office space, storage, and restroom area. Also provide telephone availability.
4. Any shop area and/or equipment and parts storage area provided shall be properly ventilated.
5. Shall possess and maintain all licenses and/or certificates as may be required by the FAA, or other appropriate agency which are applicable to the operation or services contemplated.
6. Shall employ and have on duty during operating hours trained personnel in such numbers as may be required to meet the Minimum Standards in a safe and efficient manner, but never less than one person currently certificated as a FAA rated repairman or inspector as appropriate to the services to be offered.
7. Shall maintain appropriate hours of operation sufficient to meet public demand or provide a point of contact telephone communication capability for the public desiring to utilize the SASO services.
8. Any stripping/painting provided must be with a proper spray booth and comply with all federal, state, and local regulations pertaining thereto.
9. Shall conduct all maintenance operations in accordance with applicable Airport Rules and Regulations, National Fire Protection Association requirements, and other applicable safety regulations.
10. See Section 1.08 and Appendix B for insurance coverage requirements for this commercial aeronautical activity on FBMA.

4.04 SASO – FLIGHT TRAINING

A flight training SASO engages in instructing pilots in dual and solo flight training, in fixed and/or rotary wing aircraft, and provides such related ground school instruction as is necessary preparatory to taking a written examination and flight check ride for the category or categories of pilots' licenses and ratings involved.

Minimum Standards:

1. Shall lease sufficient land area, as approved by the City, to provide for all buildings, aircraft parking, paved ramped area, and on-site customer and employee parking to accommodate activities and operations proposed. Parking requirements will be in accordance with City code.
2. Such facility shall meet FBMA Architectural and Building Design Standards, NFPA requirements, Florida Building Codes, and all applicable City Building Ordinances including properly sized paved aircraft apron. Apron shall have tie down capability for all non-hangared aircraft capable of being tied down.
3. The facility shall be properly lighted, air-conditioned, and heated to include office space, floor space for lobby or public waiting area, classroom or suitable accommodation for proper ground school instruction, storage, and public restroom. Also provide telephone availability.
4. Shall have available for use in flight training, either owned or leased by and under exclusive control of the SASO not less than one aircraft properly equipped and maintained, and FAA certified for flight instruction.
5. Shall have in its employ or under contract, and on duty as required during operating hours, currently FAA certificated instructor pilots and ground instructors in sufficient numbers as may be required, but never less than one instructor/pilot, to meet the demands of the number of students expected to be engaged in such flight training.
6. Shall provide suitable space equipped with adequate audio and visual aids for effective ground school instruction. All materials, supplies, and training methods must meet FAA requirements for the type training offered.
7. Shall maintain appropriate hours of operation sufficient to meet public demand or provide a point of contact telephone communication capability for the public desiring to utilize the SASO services.
8. See Section 1.08 and Appendix B for insurance coverage requirements for this commercial aeronautical activity on FBMA.

4.05 SASO – AIRCRAFT LEASE/RENTAL

An aircraft lease/rental SASO engages in the lease or rental of aircraft to the public for compensation.

Minimum Standards:

1. Shall lease sufficient land area, as approved by the City, to provide for all buildings, aircraft parking, paved ramped area, and on-site customer and employee parking to accommodate activities and operations proposed. Parking requirements will be in accordance with City code.
2. Such facility shall meet FBMA Architectural and Building Design Standards, NFPA requirements, Florida Building Codes, and all applicable City Building Ordinances including properly sized paved aircraft apron. Apron shall have tie down capability for all non-hangared aircraft capable of being tied down.
3. The facility shall be properly lighted, air-conditioned, and heated to include office space, floor space for lobby or public waiting area, storage, and public restroom. Also provide

- telephone availability.
4. Provide, and at all times maintain not less than one aircraft, owned or leased by and under exclusive control of the SASO, properly equipped and maintained aircraft and FAA certified for rental.
 5. Shall have in its employ or under contract and on duty as required during operating hours trained personnel in such numbers as may be required to meet the Minimum Standards in a safe and efficient manner, but no less than one properly FAA certified and qualified pilot to provide demonstration and check rides for any aircraft it intends to lease or rent.
 6. Shall maintain appropriate hours of operation sufficient to meet public demand or provide a point of contact telephone communication capability for the public desiring to utilize the SASO services.
 7. See Section 1.08 and Appendix B for insurance coverage requirements for this commercial aeronautical activity on FBMA.

4.06 SASO – AIRCRAFT CHARTER AND AIR TAXI SERVICE

An aircraft charter and/or an air taxi service SASO engages in the business of providing air transportation of person and/or property, to the general public for hire, on demand, either on a charter basis or as an air taxi operator, as currently defined in the FAR Part 135 “Operating Requirements: Commuter and On Demand Operations and Rules Governing Persons on Board Such Aircraft,” or as may be supplemented or amended from time to time.

Minimum Standards:

1. Shall lease sufficient land area, as approved by the City, to provide for all buildings, aircraft parking, paved ramped area, and on-site customer and employee parking to accommodate activities and operations proposed. Parking requirements will be in accordance with City code.
2. Such facility shall meet FBMA Architectural and Building Design Standards, NFPA requirements, Florida Building Codes, and all applicable City Building Ordinances including properly sized paved aircraft apron. Apron shall have tie down capability for all non-hangared aircraft capable of being tied down.
3. The facility shall be properly lighted, air-conditioned, and heated to include office space, floor space for lobby or public waiting area, storage, and public restroom. Also provide telephone availability.
4. Shall have and maintain during the term of the tenancy at FBMA, an air taxi license (refer to FAR Part 135) and shall operate in conformance with all appropriate FARs including but not limited to FAR Part 135 as amended.
5. Shall provide not less than one aircraft properly maintained and currently certified under FAR Part 135, either owned or under written lease to the SASO, all of which must meet the requirements of the FAA air taxi commercial operator certificate held by the SASO. Any multi-engine aircraft shall be certified for instrument operations.
6. Shall have in its employ or under contract and on duty as required during operating hours trained personnel in such numbers to carry out services as may be required to meet the Minimum Standards in a safe and efficient manner, but never less than one person who hold current FAA commercial pilot certificate with appropriate ratings to permit the flight activity offered by the SASO. All flight crews shall be properly rated for the aircraft operated. Shall provide dispatch capability within six hours of a customer request.
7. Employ one person with experience and ability to provide charter quotes, schedule and dispatch support, and customer service.
8. Make satisfactory arrangements for the checking in of passengers, handling of luggage, ticketing, ground transportation, etc.
9. Shall maintain appropriate hours of operation sufficient to meet public demand or provide a point of contact telephone communication capability for the public desiring to utilize the

SASO services.

10. Charter and non-scheduled air taxi companies, not regularly based at FBMA, but who are providing service to and from FBMA, are not subject to these Minimum Standards, but must comply with the Airport Rules and Regulations.
11. See Section 1.08 and Appendix B for insurance coverage requirements for this commercial aeronautical activity on FBMA.

4.07 SASO – AIRCRAFT SALES (NEW AND/OR USED)

An aircraft sales SASO engages in the sale of new and/or used aircraft through brokerage, ownership, franchise, or licensed dealership or distributorship, either on a retail or wholesale basis, of an aircraft manufacturer or otherwise, and provides or provides access to such repair, services, and parts, as may be contractually required, to meet any guarantee or warranty on new and/or used aircraft sold by it.

- A. **NEW AIRCRAFT SALES:** An aircraft sales SASO engages in the sale of new aircraft through franchises or licensed dealerships, if required by local, county, or state authority, or distributorship, either on a retail or wholesale basis, of an aircraft manufacturer or used aircraft.
- B. **USED AIRCRAFT SALES:** Many companies engage in the purchasing and selling of used aircraft. This is accomplished through various methods including matching potential purchasers with an aircraft, i.e. brokering, assisting a customer in the purchase or sale of an aircraft, or purchasing used aircraft and marketing them to potential purchasers.

Minimum Standards:

1. Shall lease sufficient land area, as approved by the City, to provide for all buildings, aircraft parking, paved ramped area, and on-site customer and employee parking to accommodate activities and operations proposed. Parking requirements will be in accordance with City code.
2. Such facility shall meet FBMA Architectural and Building Design Standards, NFPA requirements, Florida Building Codes, and all applicable City Building Ordinances including properly sized paved aircraft apron. Apron shall have tie down capability for all non-hangared aircraft capable of being tied down.
3. The facility shall be properly lighted, air-conditioned, and heated to include office space, storage, and public restroom. Also provide telephone availability.
4. A dealer of new aircraft shall hold an authorized factory sales or distributor franchise or sub-dealership. All aircraft dealers shall hold applicable licenses or permits that may be required by any law or regulation.
5. A dealer of new aircraft shall have available or on-call at least one current FAA certificated and airworthy model demonstrator for the aircraft in its authorized product line. A new aircraft dealer shall be able to provide for demonstration of additional models of the manufacturer for which a dealership is held.
6. Dealers of used aircraft shall have reasonable access to aircraft offered for sale for purpose of demonstration.
7. Shall have in its employ or under contract and on duty as required during operating hours trained personnel in such numbers as may be required to meet the Minimum Standards in a safe and efficient manner, or be able to obtain within eight hours of a request a fully qualified pilot for the aircraft to be demonstrated.
8. Shall maintain appropriate hours of operation sufficient to meet public demand or provide a point of contact telephone communication capability for the public desiring to utilize the SASO services.
9. See Section 1.08 and Appendix B for insurance coverage requirements for this commercial aeronautical activity on FBMA.

4.08 SASO - AIRCRAFT HANGAR STORAGE

An aircraft hangar storage SASO engages in the rental of space within conventional, open-bay, bulk hangars for the temporary or long-term parking or storage of aircraft.

Minimum Standards:

1. Shall lease sufficient land area, as approved by the City, to provide for all buildings, aircraft parking, paved ramped area, and on-site customer and employee parking to accommodate activities and operations proposed. Parking requirements will be in accordance with City code.
2. Such facility shall meet FBMA Architectural and Building Design Standards, NFPA requirements, Florida Building Codes, and all applicable City Building Ordinances including a restroom and properly sized paved aircraft apron.
3. May provide properly lighted, air-conditioned, and heated office space(s).
4. Shall have his facilities available for the tenant's aircraft removal and storage on a continuous basis.
5. Shall determine which party is responsible for the tenant's aircraft removal and storage on a continuing basis.
6. Shall employ trained personnel to meet all requirements for the storage of aircraft with appropriate equipment and on site during all aircraft operations.
7. See Section 1.08 and Appendix B for insurance coverage requirements for this commercial aeronautical activity on FBMA.

4.09 SASO – AIRCRAFT MANAGEMENT SERVICES

An aircraft management service SASO engages in the operational management of based aircraft for specific aircraft owners. Typically, an aircraft management service operator ensures or provides aircraft maintenance coordination, storage, dispatch, aircrew assignment, and ground servicing for these aircraft. An aircraft management service SASO may choose not to own or exclusively lease the aircraft to be managed and would therefore be prohibited from self-fueling such aircraft. Copies of management services agreements between the aircraft owner and the SASO must be furnished to the City.

Minimum Standards:

1. Shall lease sufficient land area, as approved by the City, to provide for all buildings, aircraft parking, paved ramped area, and on-site customer and employee parking to accommodate activities and operations proposed. Parking requirements will be in accordance with City code.
2. Such facility shall meet FBMA Architectural and Building Design Standards, NFPA requirements, Florida Building Codes, and all applicable City Building Ordinances including properly sized paved aircraft apron. Apron shall have tie down capability for all non-hangared aircraft capable of being tied down.
3. The facility shall be properly lighted, air-conditioned, and heated to include office space, floor space for lobby or public waiting area, storage, and public restroom. Also provide telephone availability.
4. Shall provide and have based upon its leasehold properly certificated and maintained aircraft.
5. Shall have in its employ or under contract and on duty as required during operating hours trained personnel in such numbers to carry out services as may be required to meet the Minimum Standards in a safe and efficient manner, and all pilots must hold current FAA commercial pilot certificates with appropriate ratings to permit the flight activity offered by the SASO. All flight crews shall be properly rated for the aircraft operated. The SASO shall provide reasonable assurance of the continued availability of qualified operating crews within

- a reasonable notice period.
6. Shall maintain appropriate hours of operation sufficient to meet public demand or provide a point of contact telephone communication capability for the public desiring to utilize the SASO services.
 7. See Section 1.08 and Appendix B for insurance coverage requirements for this commercial aeronautical activity on FBMA.

4.10 SASO – SPECIALIZED COMMERCIAL FLYING SERVICES

A specialized commercial flying service SASO engages in air transportation for hire for the purpose of providing the use of aircraft for activities including, but not limited to the following:

1. Nonstop sightseeing flights that begin and end at the same airport within a 25-mile radius of the airport.
2. Crop-dusting, seeding, spraying, bird chasing, fish spotting, etc.
3. Banner towing and aerial advertising.
4. Aerial photography, mapping, or survey.
5. Aerial fire fighting.
6. Power line or pipeline patrol.
7. Airborne mineral exploration.
8. Aerial ambulance.
9. Any other operations specifically excluded from FAR Part 135.

Minimum Standards:

1. Shall lease sufficient land area, as approved by the City, to provide for all buildings, aircraft parking, paved ramped area, and on-site customer and employee parking to accommodate activities and operations proposed. Parking requirements will be in accordance with City code.
2. Such facility shall meet FBMA Architectural and Building Design Standards, NFPA requirements, Florida Building Codes, and all applicable City Building Ordinances including restroom and properly sized paved aircraft apron.
3. May provide properly lighted, air-conditioned, and heated office space.
4. Shall provide and have based on its premises, owned or leased by and under exclusive control of the SASO, a minimum of one airworthy aircraft, suitably equipped for, and meeting all the requirements of the FAA and applicable regulations of the State of Florida with respect to the type of operations to be performed.
5. Shall provide evidence of all applicable FAA and other government agency certificates for services being provided.
6. Shall have in its employ or under contract and on duty as required during operating hours trained personnel in such numbers as may be required to meet the Minimum Standards in a safe and efficient manner, but no less than one properly FAA certified and qualified pilot properly rated for the aircraft to be used and the type of operation to be performed.
7. Shall maintain appropriate hours of operation sufficient to meet public demand or provide a point of contact telephone communication capability for the public desiring to utilize the SASO services.
8. In the case of crop-dusting or aerial application, the SASO shall make suitable arrangements and have such space available in its leased area for the safe loading and unloading and storage and containment of noxious chemical materials and that it is properly licensed by the Florida Department of Agriculture for aerial application in the State of Florida.
8. See Section 1.08 and Appendix B for insurance coverage requirements for this commercial aeronautical activity on FBMA.

NOTE: With prior permission of the City, some requirements above may be satisfied by a sublease of such space from an existing SASO or FBO or through an aeronautical operator agreement for existing

facilities, if available, from the City. See Section 1.07 regarding subleasing.

4.11 SASO – INDEPENDENT AERONAUTICAL OPERATOR

An independent aeronautical operator SASO requires the use of an aircraft to conduct its commercial aeronautical activity at FBMA, however, the independent aeronautical operator does not have commercial tenancy on FBMA. This SASO provides a single-service aeronautical activity on FBMA and may include, but is not limited to, sightseeing; flight instruction; aerial advertising; aerial photography, mapping, or survey; power line or pipeline patrol; firefighting or fire patrol; fish spotting; airborne mineral exploration; aerial ambulance; aircraft broker/dealer; aircraft rental; aircraft charter.

The City recognizes that certain commercial aeronautical operations do not always interface directly with the public and, therefore, do not necessarily require public facilities to satisfactorily conduct business. In some cases the only FBMA requirement is access to the airport or a tie down space since all other activities of the business are normally conducted off the airport. Such a provider must obtain an annual Airport Operating Permit from the City to conduct such business on FBMA. In no case shall a City owned t-hangar or bulk row storage hangar be used to operate a commercial operation on FBMA. However a properly permitted independent aeronautical operator SASO may use such hangar for aircraft storage only. An independent aeronautical operator SASO may also sublet from a FBO or SASO with approval of the City and payment of appropriate fees for the privilege to operate a commercial operation on FBMA. See Section 1.07 regarding subleasing.

A person holding a current FAA flight instructor certificate, who gives occasional flight instruction (does not advertise or proactively make available flight instruction) to an aircraft owner in the aircraft owner's aircraft, shall not be deemed a commercial aeronautical operator.

Minimum Standards:

1. Except as otherwise noted previously herein, this SASO shall have a permit or agreement with the City of Fernandina Beach for the privilege to operate their commercial aeronautical activity on FBMA. Such agreement is in addition to any possible subtenant status to another SASO or FBO.
2. Shall provide equipment and services required to meet the Minimum Standards as herein described elsewhere in Section 4 for the category of aeronautical activity the SASO is performing.
3. Shall comply with the aircraft requirements, including the equipment thereon for each aeronautical service to be performed except multiple uses can be made of all aircraft owned or under lease by the SASO.
4. Shall provide evidence of all applicable FAA or other government agency certificates for the services being provided.
5. Shall have in its employ or under contract and on duty as required during operating hours trained personnel in such numbers as may be required to meet the Minimum Standards in a safe and efficient manner for each aeronautical service the SASO is performing as herein provided. Multiple responsibilities may be assigned to meet the personnel requirements for each aeronautical service being performed by the SASO.
6. For any SASO who do not post regular operating hours shall provide a point of contact telephone communication capability for the public desiring to utilize the SASO services.
7. See Section 1.08 and Appendix B for insurance coverage requirements for this commercial aeronautical activity on FBMA.

4.12 SASO – INDEPENDENT SERVICE PROVIDER

An independent service provider SASO is a person or entity on FBMA that does not require an aircraft and does not operate from owned or leased property on FBMA. Examples of independent service

provider include but are not limited to: certified mechanics and inspectors, aircraft detailers, prop balancing, and oil recyclers.

The City recognizes that certain commercial aeronautical operations do not always interface directly with the public and, therefore, do not necessarily require public facilities to satisfactorily conduct business. In some cases the only FBMA requirement is access to the airport to conduct its commercial aeronautical business. Such a provider must obtain an annual Airport Operating Permit from the City to conduct such business upon FBMA. A properly permitted independent service provider may also sublet from a FBO or SASO with approval of the City and payment of appropriate fees for the privilege to operate a commercial operation on FBMA.

Minimum Standards:

1. Except as otherwise noted previously herein, this SASO shall have a permit or agreement with the City of Fernandina Beach for the privilege to operate their commercial activity on FBMA. Such agreement is in addition to any possible subtenant status to another SASO or FBO.
2. Shall provide evidence of all applicable FAA or other government agency certificates for the services being provided.
3. Shall provide sufficient qualified personnel necessary to meet the Minimum Standards for each aeronautical service provided. However, multiple responsibilities may be assigned to employees where feasible.
4. For any SASO who do not post regular operating hours shall provide a point of contact telephone communication capability for the public desiring to utilize the SASO services.
5. See Section 1.08 and Appendix B for insurance coverage requirements for this commercial aeronautical activity on FBMA.

4.13 SASO – COMMERCIAL PARACHUTING AND SKYDIVING

A commercial parachuting and skydiving SASO engages in the transportation of persons for skydiving, instruction in skydiving, and rental and sales of skydiving equipment.

Minimum Standards

1. Shall lease sufficient land area, as approved by the City, to provide for all buildings, aircraft parking, paved ramped area, and on-site customer and employee parking to accommodate activities and operations proposed. Parking requirements will be in accordance with City code.
2. Such facility shall meet FBMA Architectural and Building Design Standards, NFPA requirements, Florida Building Codes, and all applicable City Building Ordinances including properly sized paved aircraft apron. Apron shall have tie down capability for all non-hangared aircraft capable of being tied down.
3. The facility shall be properly lighted, air-conditioned, and heated to include office space, floor space for lobby or public waiting area, classroom or suitable accommodation for proper ground school instruction, storage, and public restroom. Also provide telephone availability. Also within the hangar or building should be an area for parachute rigging.
4. The commercial aeronautical operator shall meet or exceed the Basic Safety Requirements (BSR) of the United States Parachute Association (USPA), FAR Part 105 “Parachute Operations,” and related FAA Advisory Circulars.
5. Shall provide suitable space equipped with adequate audio and visual aids for effective ground school instruction. All materials, supplies, and training methods must meet FAA requirements for the type training offered.
6. Shall have available for skydiving, either owned or under written lease to the SASO, at least one properly certificated and equipped aircraft for skydiving.
7. Hours of operation will be at the discretion of the SASO but shall only be daylight hours.
8. Shall have in its employ or under contract and on duty as required during operating hours

- trained personnel in such numbers as may be required to meet the Minimum Standards in a safe and efficient manner, but no less than one properly FAA certified and qualified pilot properly rated for the aircraft to be used and the type of operation to be performed.
9. Shall have one appropriately rated jumpmaster.
 10. Shall maintain appropriate hours of operation sufficient to meet public demand or provide a point of contact telephone communication capability for the public desiring to utilize the SASO services.
 11. See Section 1.08 and Appendix B for insurance coverage requirements for this commercial aeronautical activity on FBMA.

4.14 FLYING CLUBS

In an effort to foster and promote flying for pleasure, develop skills in aeronautics, including pilotage, navigation, and an awareness and appreciation of aviation requirements and techniques, flying clubs are permitted at FBMA but are subject to these Minimum Standards, the Airport Rules and Regulations, federal, state, and local laws and regulations, and other restrictions as may be set forth in an operating agreement. A flying club qualifies as an individual under the FAA grant assurances. As such, a flying club has the right to fuel and maintain the aircraft of its members. All flying clubs desiring to base their aircraft and operate on FBMA must comply with the applicable provisions of these standards and requirements. However, they shall be exempt from regular commercial aeronautical operator requirements upon satisfactory fulfillment of the following:

Minimum Standards:

1. Shall lease existing property or lease sufficient land area, as approved by the City, to provide all buildings, aircraft parking, paved ramp area, and parking to accommodate activities and operations proposed. Parking requirements will be in accordance with City code.
2. Such facility shall meet FBMA Architectural and Building Design Standards, NFPA requirements, Florida Building Codes, and all applicable City Building Ordinances including properly sized aircraft apron. Apron shall have tie-down capability for all non-hangared aircraft capable of being tied down.
3. A flying club shall be a non-profit or not-for-profit entity (corporation, association, or partnership) organized for the express purpose of providing its members with one or more aircraft for their personal use and enjoyment only. The lease or ownership of the aircraft(s) must be vested in the name of the flying club, or owned on a pro rata basis by all of its members. The property rights of the members of the flying club shall be equal and no part of the net earnings of the flying club will inure to the benefit of any member in any form, such as salaries, bonuses, etc. The flying club may not derive greater revenue from the use of its aircraft than the amount necessary for the operations, maintenance, and replacement of its aircraft, facilities, and overhead, if any.
4. Flying clubs may not offer or conduct charter and/or air taxi services, or rental of aircraft operations. They may not conduct aircraft flight instruction except for regular members owning the aircraft, and only members of the flying club may operate the aircraft. Instruction may be given by a certified instructor member of the flying club or a SASO or FBO based on FBMA authorized to provide flight training. Any properly licensed mechanic who is a regular member of the flying club, or a SASO or a FBO based on FBMA authorized to provide maintenance, is permitted to perform maintenance on aircraft owned by the flying club.
5. All flying clubs and their members are prohibited from leasing or selling any goods or services whatsoever to any person or firm other than to a member of such flying club, except that a flying club may sell or exchange its capital equipment for replacement.
6. The flying club shall furnish the Airport Manager a copy of its charter and by-laws, articles of incorporation, association, partnership agreement, or other documentation supporting its existence; evidence of the club's status as a nonprofit organization; roster or list of members,

including names of officers and directors, to be revised on an annual basis; evidence of insurance in the amounts determined by the City; number and type of aircraft; evidence that all aircraft are properly certificated; evidence that ownership of the aircraft to be used are vested in the club; and the operating rules of the club. The books and records of the club shall be available for review at any reasonable time by the City.

7. See Section 1.08 and Appendix B for insurance coverage requirements for this commercial aeronautical activity on FBMA.

Appendix A - Definitions

- **Aeronautical Activity** – Any activity that involves, makes possible, or is required for the operation of aircraft or that contributes to or is required for the safety of such operations. Activities within this definition, commonly conducted on airports, include, but are not limited to the following: general and corporate aviation, air taxi and charter operations, scheduled and nonscheduled air carrier operations, pilot training, aircraft rental and sightseeing, aerial photography, crop dusting, aerial advertising and surveying, aircraft sales and services, aircraft storage, sale of aviation petroleum products, repair and maintenance of aircraft, sale of aircraft parts, parachute or ultralight activities, and any other activities that, because of their direct relationship to the operation of aircraft, can appropriately be regarded as aeronautical activities.

- **Agreement (or Lease)** – A written contract between the City of Fernandina Beach and an entity or person to occupy, use, and/or develop land and/or improvements and engage in aeronautical activity. Such contract shall recite the terms and conditions under which the activity will be conducted at the airport including, but not limited to, term of the agreement, rents, fees, and charges to be paid by the entity or person, and the rights and obligations of the respective parties.

- **Aircraft** – Any contrivance now known or hereafter invented, used, or designed for navigation of or flight in air. Examples of aircraft include, but are not limited to, airplane, glider, rotorcraft (helicopter or gyroplane), balloon, blimp, and ultralight.

- **Aircraft Maintenance** – The inspection, overhaul, repair, preservation, and the replacement of parts. Major repairs include major alterations to the airframe, power plant, and propeller as defined in 14 CFR Part 43 Maintenance, Preventive Maintenance, Rebuilding, and Alteration. Minor repairs include normal, routine annual inspection with attendant maintenance, repair, calibration, or adjustment of aircraft and their accessories.

- **Airport** – All land within the legal boundaries of Fernandina Beach Municipal Airport, owned by the City of Fernandina Beach.

- **Airport Layout Plan (ALP)** – A drawing depicting the physical layout of the airport that identifies the location and configuration of runways, taxiways, buildings, hangars, roadways, utilities, nav aids, etc.

- **Airport Manager** – The individual appointed and authorized by the City of Fernandina Beach to administer and manage all operations of the airport and airport facilities.

- **Airport Operating Permit** – An administrative approval issued by the City of Fernandina Beach (normally not exceeding annually) to a person or entity to conduct an aeronautical or commercial aeronautical activity on the airport.

- **Airport Rules and Regulations** – Rules and Regulations of the airport, properly adopted by Resolution of the City Commission of the City of Fernandina Beach, as may be amended from time to time.

- **Apron (or Ramp)** – A defined area of an airport intended to accommodate aircraft for the purposes of loading and unloading passengers or cargo, refueling, parking, or maintenance.

- **City** – The City of Fernandina Beach, located in Nassau County, Florida

- **Commercial Aeronautical Activity** – An activity which involves, makes possible, or is required for the operation of aircraft, or which contributes to or is required for the safety of aircraft operations commonly conducted on the airport and the purpose of such activity being to generate or secure earnings, income, compensation, services, goods, like-kind exchange, or profit of any kind, whether or not such results are accomplished.

Fernandina Beach Municipal Airport Minimum Standards

- Commercial Aeronautical Operator – An entity engaging in an activity which involves, compliments, makes possible, or is required for the operation of aircraft, or which contributes to, or is required for the safe conduct and utility of such aircraft operations, the purpose of such activity being to secure earnings, income, compensation, or profit, whether or not such objective or objectives are accomplished. A commercial aeronautical operator may be classified as either a Fixed Base Operator (FBO) or a Specialized Aviation Services Operation (SASO).
- Entity – A person, persons, firm, limited-liability company, corporation, partnership, unincorporated proprietorship, association, or group formed for the purpose of conducting the proposed activity.
- FAA (Federal Aviation Administration) – The federal agency within the Department of Transportation of the United States government that has the responsibility of promoting safety in the air, by both regulation and education.
- FAR (Federal Aviation Regulation) – The federal government rules and regulations governing aviation activity under Code of Federal Regulations – Title 14 Aeronautics and Space.
- Fixed Base Operator (FBO) – A commercial business granted the right by the airport sponsor to operate on an airport and provide aeronautical services such as fueling, hangaring, tie-down and parking, aircraft rental, aircraft maintenance, and flight instruction, etc.
- Flight Training – Any primary use of an aircraft to increase or maintain pilot or crewmember proficiency, rather than the use of an aircraft as transportation between two different airports or other destinations. Flight training shall also include any portion of a flight between two airports or other destinations dedicated to increase or maintain pilot or crewmember proficiency.
- Fuel – Any petroleum product used for the purpose of providing propulsion to an aircraft.
- Lessee – An entity that has entered into an agreement with the City of Fernandina Beach to occupy, use, and/or develop land and/or improvements and engage in aeronautical or commercial aeronautical activities.
- Master Plan – An assembly of appropriate documents and drawings covering the development of the airport from a physical, economical, social, and political jurisdictional perspective and adopted by the City Commission, a copy of which is on file and available for inspection in the Airport Manager’s office and any amendments, modifications, revisions, or substitutions thereof. The Airport Layout Plan is a part of the Master Plan.
- Minimum Standards for Commercial Activity (Minimum Standards) – The qualifications, criteria, and standards established by the City of Fernandina Beach as the minimum requirements to be met as a condition for the right to conduct a commercial aeronautical activity on the airport.
- Person – Any individual, firm, partnership, corporation, company, association, joint stock association, or body politic or any other group acting as an entity, or combination of thereof; and further includes any trustee, receiver, committee, assignee, or other representative or employee thereof.
- Regulatory Measures – Federal, state, county, city, and airport laws, codes, ordinances, policies, rules, and regulations, including, without limitation, those of the United States Department of Transportation, the FAA, the FDOT, NFPA, Airport Minimum Standards, Airport Rules and Regulations, all as may be in existence, hereafter enacted, and amended from time to time.
- Repair Station – A certificated aircraft maintenance facility approved by the FAA to perform certain specific maintenance functions. These facilities are certificated under 14 CFR Part 145 “Repair Stations.”
- Self-Service – Refers to the refueling, repair, preventative maintenance, towing, adjustment, cleaning, and/or other general services of any aircraft performed by the aircraft owner, or by such direct employee(s) of an aircraft owner with resources supplied by the aircraft owner.
- Shall (or will or must) – These words are always mandatory.
- Specialized Aviation Service Operation (SASO) – A commercial aeronautical entity that offers a single or limited service. These types of companies differ from a FBO in that they typically offer only a specialized aeronautical such as aircraft sales, flight training, aircraft maintenance, aircraft rental, or avionics services for example.
- Subcontract – A written agreement stating the terms and conditions under which a third party

Fernandina Beach Municipal Airport Minimum Standards

person renders aeronautical services or materials on the airport necessary for the performance of another contract at the airport.

- **Sublease** – A written agreement stating the terms and conditions under which a third party person leases space from a Lessee on the airport for the purpose of providing aeronautical services at the airport.
- **Through the Fence** – The right to have direct access to the airport from private property located contiguous to the airport whereby aircraft located on the private property has direct access to the airport’s runway and taxiway system.
