**Re: "Will Serve" Letter
Enhance Acquisition
Along Homestead Road
Block 200.10, Lots 20, 32 & 33
Hillsborough Township, Somerset County, New Jersey**

Dear Mr. Ford:

Please be advised that the Township of Hillsborough Municipal Utilities Authority (Authority) has received and reviewed your letter of April 9, 2021 concerning the above referenced properties. It is our understanding from your letter that it is the request of Enhanced Acquisition that a "will serve" letter be issued for the above referenced property.

No specific project details were provided.

Based on a review by the Authority's staff, please be advised that:

- The above referenced property is within the Somerset County / Upper Raritan Watershed Wastewater Management Plan in an area designated to be serviced by sanitary sewers.
- There are existing sanitary sewers located near the above referenced properties.
- Somerset Raritan Valley Sewerage Authority approval will be required for the flow request.
- New Jersey Department of Environmental Protection (NJDEP) Treatment Works Approval (TWA) may be required.

- Off-site system improvements may be required and this will be determined upon receiving an application and plans for review.
- Information concerning TTHMUA submission requirements and fees can be found on our website www.hillsboroughmua-nj.org

Therefore, sanitary sewer service is available. However, the Authority cannot reserve additional capacity and cannot commit to accepting additional wastewater from the project until such time that an application and plans are received, reviewed and approved by the Authority.

Should you have any questions, please feel free to contact me.

Sincerely,

Robert A. Hough, P. E.
Executive Director
