

## St Joseph MO Parkway Submittals

Metro Fibernet LLC is requesting access to the Parkways for placing Fiber to the Homes. The following are how we will be placing the Conduit and Fiber per our Contractor Agreement.

- Submit Locate Request to 811
- Pot Hole all Locations where we cross Existing Utilities
- Pot Hole Parallel Utilities if within 3' every 50'
- Horizontal Directional Drilling in approx. 500' increments per attached Prints
- All Conduit will be placed in the City of St Joseph Right of Way
- Place following Structural Boxes at various Locations per the Prints.
  - Utility Box
  - 13 x 24" Terminal Box
  - 17 x 30" B Box
  - 24 x 36" Hand Hole
  - 30 x 48" Large Hand Hole
- Restore to Equal or Better Condition within 48 Hours

Things required in all the Parkway locations.

- No changes will be allowed in Construction as shown above
- Excavating near existing Trees
- Determine if Excavating is Outside the Tree Line if possible
- Pedestrian Control on Sidewalks will be maintained
- Traffic Control per the City of St Joseph MO
