COMMUNITY RISK REDUCTION

Community Risk Reduction (CRR) is a process to identify and prioritize local risks, followed by the integrated and strategic investment of resources (emergency response and prevention) to reduce their occurrence and impact.

- Code Enforcement Hours: 19.5**
- Public Education Outreach Hours: 7 (socially distanced)**
- Fire Investigations Conducted: 79**
- Emergency Management Hours: 31**

Total Inspections Completed
453

Public Outreach

Our top priority is the safety of our community members, so in order to maintain our social distance during the COVID19 pandemic, we have gotten a little more creative in the ways we interact with the public. One of these ways is participating in drive-by birthday parades. We have also enhanced our social media interaction via frequently updated information regarding City response and COVID19 information.
